## SEED ANNUAL

### for 1941

---

#### *To Our Friends and Customers:*

As this is the 27th yearly Seed Catalogue we are sending out, we take this opportunity to express our sincere appreciation and thanks for your liberal patronage and friendly cooperation. We trust that our service has been satisfactory and that you will again send us your orders for seeds and any other products we handle.

On account of the prevailing disturbed conditions of Europe it is very little seed we have been able to get through. Ordinarily we have been importing many items, especially from Denmark and Holland, but so far this year we have not received any seeds from these countries. We have been getting small amounts of Flower seeds from England.

However, America is now producing some of the best both in Vegetable and Flower seeds and with a few exceptions we can get nearly everything American grown now.

Prices on the strictly imported seeds are in some cases higher than usual, but that is because the stock is very low, and may be entirely exhausted before long.

Any order or inquiry you send us will receive prompt, careful, and courteous attention.

*Respectfully,*

DANISH SEED COMPANY,

*Chris Mosberg.*

---

All prices subject to changes and to being unsold.

On larger orders kindly ask for special quotations.

Delivery charges will be paid by us for all seeds except Peas, Beans, Corn, Bird Seed and Lawn Seed.

---

*We give no warranty, express or implied, as to description, quality, productiveness, or any other matter connected with the goods we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. Examine seeds closely, test if desired, and if anything is wrong, the seed will be replaced or money refunded.*

DANISH SEED COMPANY,

*Chris Mosberg.*

# VEGETABLE SEEDS

## ASPARAGUS

|    |  | Oz.    | ¼ Lb.  | Lb.    |
|----|--|--------|--------|--------|
| 10 | <b>Washington</b> .....Pkt. 5c   | \$0.10 | \$0.30 | \$1.00 |
|    | Very large stems, rustproof, grows very rapidly and can be used partly 2 to 3 years after seeding.   |        |        |        |
| 14 | <b>Washington Plants</b>   |        |        |        |
|    | We recommend to plant 1-year-old plants of this variety, and offer strong plants for \$10.00 per 1,000—\$1.50 per 100—and 40c for 25 plants.   |        |        |        |
|    | <i>Sow the seeds thinly, in rows, in the early spring, and dig up and plant in permanent bed the following early spring. Set the plants not closer than 15 in. apart in trenches with the tip of the plant 6 to 8 in. below the surface of the ground, spreading the roots out evenly in all directions.</i> |        |        |        |

## BEANS—YELLOW PODDED BUSH

*Sow the beans in rows leaving at least a 15 in. space between the rows, and either drop the seeds separately 2 or 3 in. apart, or drop 3 or 4 seeds in hills about 18 in. apart.*

|    |  | ¼ Lb.  | Lb.    | 10 Lbs. |
|----|--|--------|--------|---------|
| 18 | <b>Unrivalled Wax</b> .....25 lbs. \$3.75  | \$0.10 | \$0.25 | \$1.80  |
|    | Very early, tender and prolific, half round, straight slim pods. Seeds light brown, good market variety. |        |        |         |
| 19 | <b>Improved Kidney Wax</b> .....   | .10    | .25    | 2.00    |
|    | Half round, deep yellow, stringless and very tender. Excellent variety for home use.                     |        |        |         |
| 20 | <b>Roundpod Kidney Wax or Brittle Wax</b> .....  | .10    | .25    | 2.00    |
|    | Stringless, round, slightly curved pods, high quality. Seeds white with dark spots.                      |        |        |         |
| 22 | <b>Pencil Pod Black Wax</b> .....  | .10    | .25    | 1.80    |
|    | Straight round pods, stringless.   |        |        |         |
| 25 | <b>Improved Golden Wax</b> .....Pkt. 5c  | .10    | .25    | 2.00    |
|    | Good old variety, flat pods. Bears a long time if kept picked. Seeds white and violet.                   |        |        |         |
| 26 | <b>Webber Wax (Cracker Jack Wax)</b> .....25 lbs. 4.00   | .10    | .25    | 1.80    |
|    | Early, prolific fleshy pods.   |        |        |         |

## BEANS—GREEN PODDED BUSH

|    |   |     |     |       |
|----|---|-----|-----|-------|
| 34 | <b>Longfellow</b> .....25 lbs. 4.00   | .10 | .25 | 1.80  |
|    | Very early, round slim pods, dark green.  |     |     |       |
| 35 | <b>Stringless Black Valentine</b> .....25 lbs. 3.75   | .10 | .25 | 1.80  |
|    | Half round straight slender pods, stringless, very early and prolific.  |     |     |       |
| 36 | <b>Bountiful</b> .....25 lbs. 4.00  | .10 | .25 | 2.00  |
|    | Flat pod, very tender, light green, early.  |     |     |       |
| 37 | <b>The Prince</b> .....25 lbs. 4.00   | .10 | .30 | ..... |
|    | Very long podded, and when young, practically stringless. Quite one of the largest beans, and a heavy bearer. Probably the finest variety for exhibition and general use. |     |     |       |
| 38 | <b>Tendergreen</b> .....25 lbs. 3.75  | .10 | .25 | 2.00  |
|    | Round, fleshy, stringless pods, good producer, early.   |     |     |       |
| 40 | <b>Stringless Green Pod</b> .....   | .10 | .25 | 2.00  |
|    | Popular canning variety. Very good for Home Gardens. Round, fleshy pods, stringless, medium early.  |     |     |       |
| 41 | <b>Stringless Green Refugee</b> .....   | .10 | .25 | 1.80  |
|    | Late, very heavy producer, round, stringless, small pods.   |     |     |       |
| 45 | <b>Dwarf Horticultural or Cranberry Beans</b> .....   | .10 | .25 | ..... |
|    | Pods and seeds are striped. Used mostly shelled.  |     |     |       |
| 49 | <b>Broad Beans Windsor</b> .....25 lbs. 4.00  | .10 | .30 | ..... |
|    | Grows tall erect stalks with pods near the top. Beans only used shelled.  |     |     |       |
| 50 | <b>McCrea's Lima</b> .....25 lbs. 4.00  | .10 | .30 | ..... |
|    | Erect, runnerless bush, pods 3" curved, thick and round. 3 to 5 gray green beans, fine quality.   |     |     |       |
| 52 | <b>Henderson's Bush Lima</b> .....25 lbs. 4.00  | .10 | .30 | ..... |
|    | Small seeded, earliest variety of lima.   |     |     |       |
| 53 | <b>Burpee's Bush Lima</b> .....25 lbs. 4.00   | .10 | .30 | 2.20  |
|    | Large seeded, prolific, pods 6 inches long.   |     |     |       |

**BEANS—Continued**

|  | ¼ Lb. | Lb. | 10<br>Lbs. |
|--|-------|-----|------------|
| 54 <b>Fordhook Bush Lima</b> .....                       | .10   | .30 | 2.20       |
| Large seeded, early variety.                             |       |     |            |
| 55 <b>Baby Potato Lima</b> .....                         | .10   | .30 | .....      |
| Small thick bright green seeds, thrifty and quite early. |       |     |            |
| 56 <b>Edible Soya Bean, Bansei</b> .....                 | .15   | .50 | .....      |
| One of the best varieties for short season climate.      |       |     |            |
| 57 <b>Swedish Brown</b> .....                            | .10   | .20 | .....      |
| Used for dry shelled beans.                              |       |     |            |
| 58 <b>White Navy Beans</b> .....                         | .10   | .15 | .....      |
| 59 <b>Boston Yellow Eyed</b> .....                       | .10   | .20 | 1.50       |
| Popular shell bean.                                      |       |     |            |

**POLE BEANS**

|  |     |     |       |
|--|-----|-----|-------|
| 60 <b>Kentucky Wonder</b> .....  | .10 | .30 | ..... |
| Green, large pod, not very smooth but good quality.  |     |     |       |
| 61 <b>Kentucky Wonder Wax</b> .....  | .10 | .30 | ..... |
| Yellow pod, similar otherwise to the green.  |     |     |       |
| 63 <b>Giant Podded Pole Lima</b> .....   | .10 | .30 | ..... |
| Fairly early, large seeds.   |     |     |       |
| 65 <b>Yard Long</b> .....  | .15 | .40 | ..... |
| Vines 6 feet, pods 18" to 26". Tender when young, light green, small reddish tan seeds.  |     |     |       |
| 66 <b>Scarlet Runner</b> .....   | .15 | .40 | ..... |
| Used mostly for ornament. Has clear scarlet flowers. Pods can be cooked as other green beans.  |     |     |       |
| <i>Sow Pole Beans in a location where trellises can be erected for them to climb up on, or have tall stakes ready to set with the hills.</i> |     |     |       |

**BEETS**

*Sow in rows not closer than a foot apart and thin out the plants so there is 3 to 4 inches between each.*

|  | Pkt.   | Oz.    | ¼ Lb.  | Lb.    |
|--|--------|--------|--------|--------|
| 69 <b>Early Flat Egyptian</b> .....  | \$0.05 | \$0.10 | \$0.30 | \$1.00 |
| Flat, deep red, very tender and early.   |        |        |        |        |
| 70 <b>Green Top Bunching</b> .....   | .05    | .10    | .35    | 1.25   |
| Very early round smooth beet green foliage.  |        |        |        |        |
| 71 <b>Early Wonder</b> .....   | .05    | .10    | .25    | .90    |
| Very early, semi-globular, uniform size, short erect top, purple red flesh, slightly lighter zones, tender and fine quality. |        |        |        |        |
| 74 <b>Early Crimson Globe</b> .....  | .05    | .10    | .25    | .90    |
| Extra fine quality, light red, globe shaped.   |        |        |        |        |
| 75 <b>Perfect Detroit Dark Red</b> .....   | .05    | .10    | .25    | .80    |
| Deep red, globe shaped, extra good variety for main crop or late use, good keeping quality.                                  |        |        |        |        |
| 79 <b>Beet Seed for Beet Green</b> .....   | .10    | .15    | .50    |        |
| Sow fairly thick in rows and pull up when large enough for cooking.  |        |        |        |        |

**MANGEL**

*One of the best and most nourishing, milk producing food for Cattle. Sow the seed in early May, in fairly rich soil, in rows two feet apart and thin out to about 12 inches between each plant. Keep cultivating until the leaves cover the ground.*

|  | ¼ Lb. | 1 Lb. | 10<br>Lbs. |
|--|-------|-------|------------|
| 84 <b>Danish Sludstrup</b> .....   | .20   | .65   | 6.00       |
| Oblong, orange yellow, highest food contents of all the Mangels.               |       |       |            |
| 85 <b>Mammoth Long Red</b> .....   | .20   | .65   | 6.00       |
| Very large, long red.  |       |       |            |
| 87 <b>Giant Half Sugar Rose</b> .....  | .20   | .65   | .....      |
| Half long, pointed, upper half rose, lower half white, high contents of sugar. |       |       |            |
| 90 <b>Sugar Beet Wanzlebener</b> .....   | .20   | .65   | .....      |
| Real Sugar Beet and really not a mangel but can be used for feeding.           |       |       |            |

**BRUSSELS SPROUTS**

*Sow the seed in early spring and when plants are large enough, transplant to permanent place, setting the plants about 18 inches apart.*

|   | Pkt. | Oz. | ¼ Lb. |
|---|------|-----|-------|
| 98 <b>Odense Market</b> .....                           | .05  | .25 | ..... |
| Half tall with firm sprouts setting close on the stalk. |      |     |       |

## BRUSSELS SPROUTS—Continued

|                               | Pkt. | Oz. | ¼ Lb. | Lb.   |
|-------------------------------|------|-----|-------|-------|
| 99 Long Island Improved ..... | .05  | .30 | ..... | ..... |
| Very short early variety.     |      |     |       |       |

## BROCCOLI

*Culture quite similar to Cauliflower, but makes bunches of green buds which are cooked and eaten like Cauliflower.*

|                                  |     |     |      |  |
|----------------------------------|-----|-----|------|--|
| 95 Italian Green Sprouting ..... | .10 | .45 | 1.50 |  |
| Early maturing, very tender.     |     |     |      |  |

## CABBAGE

*Nearly all our Cabbage Seeds are grown in Denmark and will give good satisfaction in almost any climate. For the earliest crop, sow the seed very early and have good plants hardened and ready to set out in the field in April. For late Cabbage in this vicinity, the seed should be sown in first half of May and the plants set out the last half of June in rows 2 to 3 feet apart and the plants about 2 feet apart.*

|  | Pkt. | Oz. | ¼ Lb. | Lb.  |
|--|------|-----|-------|------|
| 105 Early Jersey Wakefield .....   | .05  | .20 | .75   | 2.50 |
| Very early, pointed heads.   |      |     |       |      |
| 108 Golden Acre .....  | .05  | .35 | 1.25  | 4.00 |
| Very early, round solid heads. Ready a few days later than the pointed variety.  |      |     |       |      |
| 107 Golden Acre, Elite Strain.....   | .10  | .50 | 1.75  | 6.00 |
| Special early strain from a well-known Danish Grower.  |      |     |       |      |
| 111 Golden Acre, Yellow Resistant.....   | .10  | .45 | 1.50  | 5.00 |
| 112 Copenhagen Market .....  | .05  | .35 | 1.25  | 4.00 |
| Very early, large, round, solid heads. If planted late, it makes an excellent Kraut cabbage.   |      |     |       |      |
| 113 Marion Market .....  | .10  | .45 | 1.50  | 5.00 |
| Yellow resistant, Copenhagen Market type.  |      |     |       |      |
| 116 Glory of Enkhuizen .....   | .05  | .25 | .90   | 3.00 |
| Best variety for Mid-season. Can be planted closer together as it has few and smaller outer leaves. Will keep fairly well during December. |      |     |       |      |
| 117 Globe .....  | .10  | .45 | 1.50  | 5.00 |
| Yellow resistant, Glory of Enkhuizen type.   |      |     |       |      |
| 118 Flat Dutch or Brunswick Improved.....  | .05  | .20 | .75   | 2.50 |
| Large, flat heads, not very hard and not a good keeper.  |      |     |       |      |
| 121 Danish Ballhead Amager, Medium Stem.....   | .05  | .35 | 1.25  | 4.50 |
| Round-headed, half short stem, very good keeper. Heads uniform, very hard and heavy, not very large.                                       |      |     |       |      |
| 122 Danish Ballhead Munke Strain.....  | .05  | .35 | 1.25  | 4.50 |
| Similar to the Amager strain except this is earlier, slightly larger.  |      |     |       |      |
| 126 Wisconsin Hollander .....  | .05  | .35 | 1.25  | 4.00 |
| Yellow-resisting strain, has large leaves but will do on yellow infested soil.   |      |     |       |      |
| 131 Hollander .....  | .10  | .35 | 1.25  | 4.00 |
| Ferry's strain. Preferred by some growers instead of the Danish strain.  |      |     |       |      |
| 133 Penn State Ballhead .....  | .10  | .35 | 1.25  | 4.50 |
| Danish grown seed.   |      |     |       |      |

## RED CABBAGE

|   |     |     |      |       |
|---|-----|-----|------|-------|
| 140 Earliest Red .....  | .10 | .45 | 1.50 | ..... |
| Earliest, round solid heads, not a good keeper.                               |     |     |      |       |
| 141 Amager Giant .....  | .10 | .45 | 1.50 | ..... |
| Very large, round, solid heads. Should be planted out early for best results. |     |     |      |       |
| 142 Mammoth Large Red .....   | .05 | .35 | 1.25 | ..... |
| Large, medium early.  |     |     |      |       |
| 143 Danish Stonehead .....  | .10 | .45 | 1.50 | ..... |
| Best variety for late use, keeps well.  |     |     |      |       |

**SAVOY CABBAGE**

|                              | Pkt.       | Oz.        | ¼ Lb. | Lb.   |
|------------------------------|------------|------------|-------|-------|
| <b>150 Long Island</b> ..... | <b>.05</b> | <b>.25</b> | ..... | ..... |

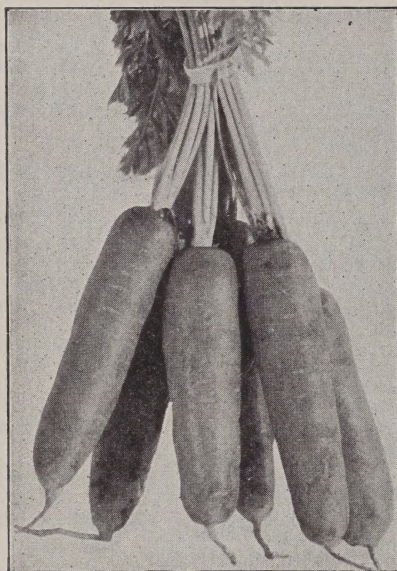

Rather loose heads, leaves curled or crimped, most tender and sweet cabbage. Does not keep well.

**CHINESE CABBAGE**

*Also called Celery Cabbage, as it has no resemblance to cabbage except in the flavor. It grows upright with long or oblong loose heads, like Cos Lettuce. The seeds should be sown in late spring or early summer and the plants thinned out to at least a foot apart. Heads appear latter part of the summer.*

|                         |            |            |             |       |
|-------------------------|------------|------------|-------------|-------|
| <b>155 Chihli</b> ..... | <b>.05</b> | <b>.30</b> | <b>1.00</b> | ..... |
|-------------------------|------------|------------|-------------|-------|

Very early and gives the highest percentage of fairly solid and long heads.

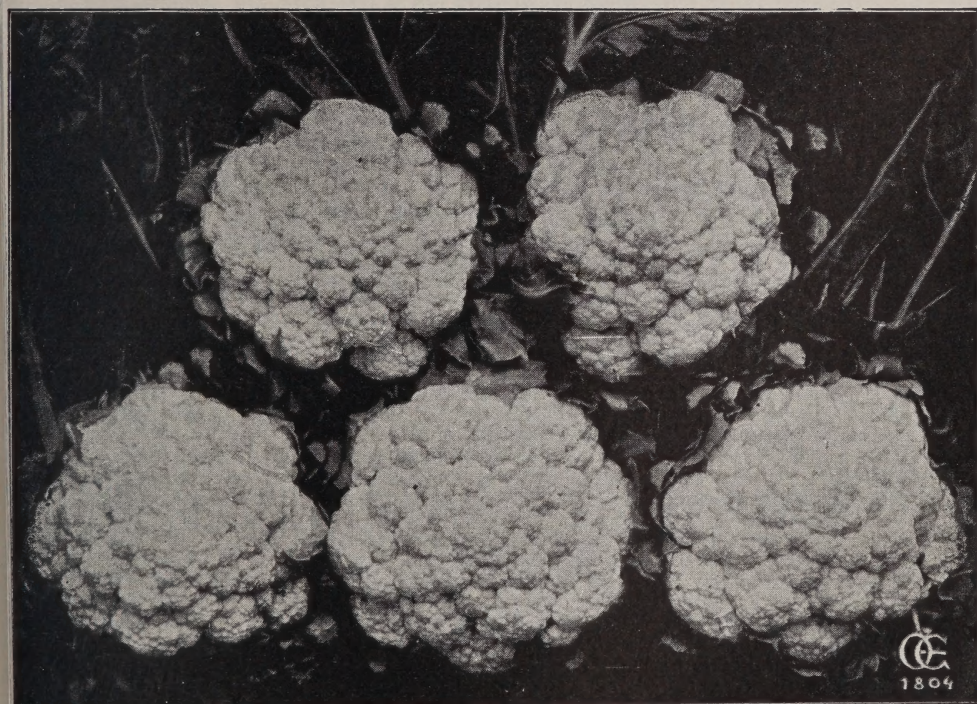

**CARROT NANTES IMPROVED****CARROT CHANTENAY****CARROTS**

Sow in rows at least 10 inches apart and thin out when large enough. Varieties with large tops should be thinned out to about 3 inches apart and the small-topped varieties to 1½ to 2 inches. Carrots should not have fresh fertilizer. Does best in light soil which has been richly fertilized for a crop the preceding year.

|   | Pkt.       | Oz.        | ¼ Lb.      | Lb.         |
|---|------------|------------|------------|-------------|
| <b>162 Delicacy</b> .....   | <b>.05</b> | <b>.25</b> | <b>.80</b> | .....       |
| Early, very tender and sweet. Attains the size of a little finger when ready to use. Short topped.                          |            |            |            |             |
| <b>163 Amsterdam</b> .....  | <b>.05</b> | <b>.25</b> | <b>.75</b> | <b>2.50</b> |
| Short topped, very early, cylindrical, turns orange-red when about ½ inch thick. A high quality carrot, but not very large. |            |            |            |             |
| <b>166 Oxheart</b> .....  | <b>.05</b> | <b>.20</b> | <b>.60</b> | <b>2.00</b> |
| Early, short and thick. Should be used before they get too large. Good quality.   |            |            |            |             |

## CARROTS—Continued

|     |   | Pkt.  | Oz. | ¼ Lb. | Lb.  |
|-----|---|-------|-----|-------|------|
| 169 | <b>Nantes Improved</b> .....  | .05   | .25 | .75   | 2.50 |
|     | Coreless cylindrical shaped, deep orange-red, very sweet and tender, early, short tops. One of the best carrots for home use. |       |     |       |      |
| 172 | <b>Chantenay</b> .....10 lb. \$18.00  | .05   | .20 | .60   | 2.00 |
|     | Most popular Market Carrot. Early, half long, blunt rooted, deep orange flesh, tops large.                                    |       |     |       |      |
| 173 | <b>Red Cored Chantenay</b> .....  | .05   | .25 | .75   | 2.50 |
|     | Red core, shorter top and sweeter than the ordinary Chantenay.  |       |     |       |      |
| 175 | <b>Danvers Half Long</b> .....  | .05   | .15 | .45   | 1.60 |
|     | Medium early, half long, good quality.  |       |     |       |      |
| 176 | <b>Imperator</b> .....  | .05   | .20 | .60   | 2.00 |
|     | New medium long carrot, top not very large but strong enough for bunching, roots deep orange red, indistinct core.            |       |     |       |      |
| 179 | <b>Pride of Denmark</b> .....   | .05   | .20 | .60   | 2.00 |
|     | Large Nantes type, deep orange-red, very sweet and a good keeper.   |       |     |       |      |
| 183 | <b>Yellow Champion Giant</b> .....  | ..... | .10 | .35   | 1.25 |
|     | Very large yellow Fodder carrot. Does well in poor sandy soil.  |       |     |       |      |
| 184 | <b>White Belgian Giant</b> .....  | ..... | .10 | .35   | 1.25 |
|     | Very large, White Fodder Carrot. Requires better soil than the yellow variety.  |       |     |       |      |

CAULIFLOWER EARLY DANISH SNOWBALL

## CAULIFLOWER SNOWDRIFT

## CAULIFLOWER

*For early Cauliflower, the seed should be started very early in the spring, so the plants can be strong and hardened and ready to set out in April. For late use the seed can be planted in the middle of May and the plants set out the latter half of June. We recommend to treat the bed with Semesan or Formaldehyde Dust before seeding, as the small plants are apt to damp off.*

|   | Pkt. | Oz.  | ¼ Lb. | Lb.   |
|---|------|------|-------|-------|
| 190 Early Danish Snowball.....  | .25  | 4.00 | 14.00 | ..... |
| Our most popular variety. It is very early but equally good for late planting.  |      |      |       |       |
| 191 Early Erfurt Dwarf low germination.....   | .25  | 1.25 | 4.50  | 16.00 |
| About a week later than Snowball. Leaves a little taller and the heads more flat.   |      |      |       |       |
| 192 Dry Weather or Danish Giant low germination.....  | .25  | 2.00 | 7.00  | ..... |
| Taller and later than Erfurt, has more leaves and rounder heads. Extra good for late planting as the heavy foliage is a protection against hot weather. |      |      |       |       |
| 196 Catskill Snowball, low germination.....   | .25  | 1.25 | 4.50  | 16.00 |
| A good strain, maturing in between Snowball and Erfurt.   |      |      |       |       |
| 199 Snowdrift .....   | .25  | 6.00 | 20.00 | ..... |
| New variety from Holland. Large Snow white heads.   |      |      |       |       |
| 195 Super Snowball, low germination.....  | .25  | 2.00 | 7.00  | ..... |
| A uniformly headed strain of Snowball, desirable where a large quantity is required at one time.  |      |      |       |       |

## CHICORY

|  |     |     |      |       |
|--|-----|-----|------|-------|
| 205 Brusseler Witloof .....  | .05 | .60 | 2.00 | ..... |
| Select Strain.   |     |     |      |       |
| <i>Also called French Endive. Seeded in May and in the Fall the roots are dug up, planted again in a dark warm basement or like place in boxes, kept moist, and the fresh leaves or sprouts which then grow up during the Winter months are used for salads.</i> |     |     |      |       |

## CELERIAC OR ROOT CELERY

*Seed should be started under glass in March, and the plants set out in rich, fairly moist ground in late May. Set the plants about 1½ feet apart.*

|  |     |     |     |       |
|--|-----|-----|-----|-------|
| 225 Prague Giant .....                     | .05 | .25 | .80 | ..... |
| Large smooth roots with clear white flesh. |     |     |     |       |

## CELERY

For early celery the seed can be planted in early March, under glass, and the plants set out when no more heavy frost is expected. For late celery seed can be sown outside in May and have strong plants ready by the middle of June. The best soil for celery is well cultivated and well powdered peat soil. The plants can be planted 6 to 9 inches apart in single rows about 2 feet or more apart, or can be planted in double rows 6 to 9 inches apart and 2-3 feet between each double row. Bleaching should be started at least 2 weeks before harvest, and can be done with a wide board, special paper, or the soil can be hilled up around the plants. An ounce of seed should produce from 5,000 to 10,000 plants.

|  | Pkt.  | Oz.  | ¼ Lb. | Lb.   |
|--|-------|------|-------|-------|
| <b>210 Paris Golden Yellow Self-blanching</b> .....  | .25   | 1.25 | 4.50  | 16.00 |
| Tall, very fast grower, golden yellow heart, stalks thick, broad and crisp, with a fine nut-like flavor. Imported French Seed. |       |      |       |       |
| <b>211 Paris Golden Yellow Self-blanching</b> .....  | .10   | .50  | 1.50  | 5.00  |
| American grown seed, extra good strain.  |       |      |       |       |
| <b>213 Golden Self-blanching</b> .....   | .10   | .50  | 1.50  | 5.00  |
| Extra good strain of American grown seed.  |       |      |       |       |
| <b>214 Michigan Golden</b> .....   | ..... | 1.50 | 5.00  | ..... |
| New yellow resitant strain.  |       |      |       |       |
| <b>215 Golden Plume</b> .....  | .10   | .50  | 1.50  | 5.00  |
| Heavy, strong growing American variety. Very good for shipping.  |       |      |       |       |
| <b>217 Utah or Golden Crisp</b> , most popular green celery of the Pascal type, crisper and nuttier.....                       | .10   | .50  | 1.50  | 5.00  |
| <b>218 Giant Pascal</b> .....  | .05   | .30  | 1.00  | ..... |
| One of the finest flavored variety of Celery. Grows compact but vigorous. When bleached is yellowish white.                    |       |      |       |       |
| <b>219 Golden Pascal</b> .....   | .25   | 1.00 | 3.00  | ..... |
| New golden yellow, very tender and exceptional fine quality, quite late.   |       |      |       |       |
| <b>220 Easy Blanching</b> .....  | .05   | .30  | 1.00  | ..... |
| Fairly large, late, green, bleaches to clear white. Good quality and good keeper.  |       |      |       |       |
| <b>221 White Plume</b> .....   | .05   | .25  | .80   | ..... |
| Early white variety.   |       |      |       |       |

## CUCUMBER

Out doors, cucumber can be seeded in rows 3-4 feet or more apart and the seed dropped 3-4 inches apart, an inch below the surface of the ground, or the seed can be planted in hills about 4 feet apart and 8-10 seeds to each hill. A good method where the soil is not very rich, is to dig a trench and fill in some fresh manure and then at least 6 inches of soil between the manure and the seed.

|  |     |     |     |       |
|--|-----|-----|-----|-------|
| <b>230 Hunderup Forcing.</b> Extra good Greenhouse variety, English type, grows up to 24 inches long, smooth, slim cucumber. Seedless if insects are kept away. Has a very fine flavor, heavy producer. Not recommended for out-door planting. 10 seeds, 20c—100 seeds \$1.50. |     |     |     |       |
| <b>232 No. 315 or Hjallesse.</b> Very fine cucumber for greenhouse growing. About 12 inches long, smooth dark green, and stays green a long time, flesh thick, small seed cavity. Greenhouse grown seed. 100 seeds \$1.00—oz. \$5.00—lb. \$60.00.                              |     |     |     |       |
| <b>235 Lemon</b> , about 3½ in. in diameter, nearly round, good quality .....  | .05 | .15 | .50 | ..... |
| <b>237 Longfellow</b> .....  | .05 | .10 | .30 | 1.00  |
| Dark green, uniform, straight, averaging 12-14 in. long by 2½ in. Good for either outdoor or for indoor culture.   |     |     |     |       |

**CUCUMBER—Continued**

|   | Pkt. | Oz. | $\frac{1}{4}$ Lb. | Lb.   |
|---|------|-----|-------------------|-------|
| <b>238 Clark's Special</b> .....  | .05  | .10 | .30               | 1.00  |
| Good slicing cucumber, 8-10 inches long, dark green. Recommended for Hot Beds, Greenhouse or outdoors.  |      |     |                   |       |
| <b>239 Straight 8</b> .....   | .05  | .10 | .30               | 1.00  |
| Symmetrical, cylindrical, about 8 inches long and about $1\frac{1}{2}$ inches in diameter, well rounded at the ends, deep green when ready for use. |      |     |                   |       |
| <b>240 Colorado</b> .....   | .05  | .10 | .35               | 1.25  |
| An all American Award Cucumber, about 12 inches long, slender, dark green. Fine for slicing.  |      |     |                   |       |
| <b>241 Danish Pickle or Asie</b> .....  | .05  | .20 | .60               | 2.00  |
| Large, light green, heavy producer, fine quality, very small or fine spines.  |      |     |                   |       |
| <b>242 Japanese Climbing</b> .....  | .05  | .15 | .50               | ..... |
| Climbing variety, dark green, about 9 inches long and $2\frac{1}{2}$ inches in diameter.  |      |     |                   |       |
| <b>243 Davis Perfect</b> .....  | .05  | .10 | .30               | 1.00  |
| Long, dark green, stays green a long time after picking, very good but not so prolific as some of the other varieties.                              |      |     |                   |       |
| <b>245 Early Fortune</b> .....  | .05  | .10 | .30               | 1.00  |
| Slightly shorter than Davis Perfect, but much more prolific. Can be used either for slicing or pickling.  |      |     |                   |       |
| <b>246 Improved Early White Spine</b> .....   | .05  | .10 | .30               | 1.00  |
| Early, prolific, popular variety.   |      |     |                   |       |
| <b>247 Evergreen White Spine</b> .....  | .05  | .10 | .30               | 1.00  |
| Long, cylindrical shaped, dark green, medium early.   |      |     |                   |       |
| <b>250 Improved Long Green</b> .....  | .05  | .10 | .30               | 1.00  |
| Good for late use and for ripe pickling. Good producer.   |      |     |                   |       |
| <b>252 Chicago Pickling</b> .....   | .05  | .10 | .30               | 1.00  |
| Very heavy producer and used mostly for Dill Pickling or small sweet pickles.   |      |     |                   |       |
| <b>253 National Pickling</b> .....  | .05  | .10 | .30               | 1.00  |
| Heaviest yielding pickling variety.   |      |     |                   |       |
| <b>254 Snow's Pickling</b> .....  | .05  | .10 | .30               | 1.00  |
| For small pickling. Has square ends which makes easy packing in preserve jars.  |      |     |                   |       |
| <b>255 West India Gherkins</b> .....  | .05  | .15 | .50               | ..... |
| Small, half round, spined. Good for small pickles.  |      |     |                   |       |

**EGG PLANT**

*Should be seeded under glass in March and the plants set out when all danger of frost is over.*

|  |     |     |      |       |
|--|-----|-----|------|-------|
| <b>256 Black Beauty</b> .....                  | .10 | .40 | 1.25 | ..... |
| Large, purple-black fruit, good bearer, early. |     |     |      |       |

**ENDIVE**

*Seed in the open and thin out to 10 to 12 inches apart.*

|  |     |     |     |       |
|--|-----|-----|-----|-------|
| <b>260 Green Curled Summer</b> .....                                 | .05 | .15 | .40 | ..... |
| Finely curled, yellow center.  |     |     |     |       |
| <b>261 Deep Heart, fringed</b> .....                                 | .05 | .20 | .60 | ..... |
| <b>262 Batavian Broad-leaved</b> .....                               | .05 | .15 | .40 | ..... |
| Leaves large and broad, well rounded compact heads, easily blanched. |     |     |     |       |

**KALE**

*Sow in Spring and set the plants  $1\frac{1}{2}$  feet apart.*

|                                       |     |     |     |       |
|---------------------------------------|-----|-----|-----|-------|
| <b>350 Odense Market</b> .....        | .05 | .15 | .40 | ..... |
| Half tall, finely curled, dark green. |     |     |     |       |

**KOHLRABI**

*Sow in Spring and transplant about 8 inches apart, or sow in rows and thin out to that distance.*

|   |     |     |     |       |
|---|-----|-----|-----|-------|
| <b>360 Early White Vienna</b> .....                   | .05 | .25 | .80 | 3.00  |
| Short-topped, greenish white, early, tender flesh.    |     |     |     |       |
| <b>361 Early Purple Vienna</b> .....                  | .05 | .25 | .80 | ..... |
| Similar to above but purple colored instead of white. |     |     |     |       |

| 396 | <b>Early May King</b> .....<br>Very early and tender, not very large but quite dependable to head.   | .05  | .15 | .50               | ..... |
| 398 | <b>Mignonette</b> .....<br>Small, dark green, very solid heads, crisp and tender.  | .05  | .20 | .60               | ..... |
| 402 | <b>Cos Lettuce Trianon or Paris White</b> .....<br>Oblong, self-closing, well blanched, firm head.   | .05  | .15 | .50               | ..... |

## MUSKMELON

*Seed can be sown 3-4 inches apart in rows 4-5 feet apart or planted 8-10 seeds in a hill, 4-5 feet apart.*

|     |  |     |     |     |      |
|-----|--|-----|-----|-----|------|
| 410 | <b>Emerald Gem</b> .....<br>Very early, thick, sweet flesh, rich salmon colored inside.      | .05 | .15 | .35 | 1.25 |
| 416 | <b>Delicious</b> .....<br>Early, medium size, sweet salmon flesh, outside grey-green netted. | .05 | .10 | .30 | 1.00 |
| 417 | <b>H. B. No. 45</b> .....<br>Mildew resistant Hale's Best.                                   | .05 | .10 | .35 | 1.25 |
| 415 | <b>Early Sunrise</b> .....<br>Very early, extra good, fair size.                             | .05 | .10 | .30 | 1.00 |
| 418 | <b>Hale's Best</b> .....<br>Early Rockyford variety, oval, heavily netted, salmon flesh.     | .05 | .10 | .30 | 1.00 |

**MUSKMELONS—Continued**

|   | Pkt. | Oz. | ¼ Lb. | Lb.  |
|---|------|-----|-------|------|
| <b>424 Golden Osage</b> .....   | .05  | .10 | .30   | 1.00 |
| Large, fairly early, deep golden yellow skin, fairly well netted, good quality.   |      |     |       |      |
| <b>425 Benders Surprise</b> .....   | .05  | .10 | .30   | 1.00 |
| Good quality, fairly large, golden yellow skin, salmon flesh, medium early.   |      |     |       |      |
| <b>Hardshell Bender (Schoons)</b> .....   | .05  | .10 | .35   | 1.25 |
| Quite similar to Golden Osage or Benders Surprise except this has a very hard shell which makes it a better melon for transportation.               |      |     |       |      |
| <b>432 Hearts of Gold</b> .....   | .05  | .10 | .30   | 1.00 |
| Almost round, covered with grey netting, thick, deep salmon orange flesh, tender, sweet and juicy, medium late.                                     |      |     |       |      |
| <b>433 Pride of Wisconsin</b> .....   | .05  | .10 | .35   | 1.25 |
| New, good melon, quite similar to Honey Rock except being larger and having a harder rind.  |      |     |       |      |
| <b>434 Juicy Fruit</b> .....  | .05  | .15 | .45   | 1.50 |
| Very sweet, fairly large, medium early.   |      |     |       |      |
| <b>435 Honey Rock or Sugar Rock</b> .....   | .05  | .10 | .30   | 1.00 |
| New, very delicious melon which is becoming more popular. Medium size, grey-green skin, moderately covered with heavy coarse netting, salmon flesh. |      |     |       |      |
| <b>437 Honey Dew</b> .....  | .05  | .15 | .35   | 1.25 |
| Large, late variety, smooth, lemon colored skin when ripe, flesh light green and very sweet, good keeper.   |      |     |       |      |
| <b>438 Honey Ball</b> .....   | .05  | .15 | .35   | 1.25 |
| Smaller and earlier than Honey Dew. Smooth lemon yellow skin, very sweet.   |      |     |       |      |
| <b>440 Banana</b> .....   | .05  | .15 | .35   | 1.25 |
| Long, banana shaped, very sweet   |      |     |       |      |

**WATERMELON**

*Sow like Musk Melons, except water melons require more space between the hills.*

|  |     |     |     |      |
|--|-----|-----|-----|------|
| <b>443 Northern Sweet</b> .....  | .05 | .15 | .40 | 1.35 |
| Very early, rather small, but of a very fine quality.  |     |     |     |      |
| <b>444 Sugar Swika</b> .....   | .05 | .25 | .80 | 2.50 |
| Very early, medium size, round, mottled, very thin rind, flesh red and sweet.  |     |     |     |      |
| <b>446 Dark Icing</b> .....  | .05 | .10 | .25 | .75  |
| Fairly early, almost round, dark green skin.   |     |     |     |      |
| <b>447 Dixie Queen</b> .....   | .05 | .10 | .30 | 1.00 |
| Nearly round, light green, striped with dark green, very fine quality, small white seed.   |     |     |     |      |
| <b>448 Kleckly Sweet Improved</b> .....  | .05 | .10 | .25 | .75  |
| Fairly early, large, oblong shape, dark green skin, very sweet, red flesh.   |     |     |     |      |
| <b>449 Halberts Honey</b> .....  | .05 | .10 | .25 | .75  |
| Large, oblong, dark green skin, crimson meat, juicy and sweet, fairly early.   |     |     |     |      |
| <b>450 Klondike Striped</b> .....  | .05 | .10 | .30 | 1.00 |
| When matured should be 15 inches long and about 10 inches thick, striped light and dark green, hard rind, flesh scarlet and very sugary. |     |     |     |      |
| <b>452 Early Kansas</b> .....  | .05 | .10 | .25 | .80  |
| Slightly striped or mottled grey green on dark green; oblong to round; early and good.   |     |     |     |      |
| <b>453 Angelino</b> .....  | .05 | .10 | .25 | .80  |
| A good quality melon. A distinct netting appears on the skin when ripe and ready to pick.  |     |     |     |      |
| <b>454 Kansas King</b> .....   | .05 | .10 | .25 | .80  |
| Quite similar to Early Kansas, perhaps slightly larger and a little later.   |     |     |     |      |
| <b>455 Pride of Muscatine</b> .....  | .05 | .10 | .25 | .80  |
| Shape and size like Kleckly Sweet but is resistant to wilt.  |     |     |     |      |
| <b>456 Winter Queen or Honey Dew</b> .....   | .05 | .10 | .30 | 1.00 |
| Almost round, light green skin, late; red, sweet flesh, good keeper.   |     |     |     |      |
| <b>460 Citron—Red Seeded</b> .....   | .05 | .10 | .30 | 1.00 |
| Used for preserves.  |     |     |     |      |

**MUSHROOM SPAWN**

- 466 American Type Spores**, white, bottle.....75c each  
One bottle will plant about 35 square feet.

**ONION**

Prices on Onion Seeds are variable and we specially invite inquiries as to the price at the time of ordering.

*Use from 3 to 5 lbs. per acre, according to distance between rows.*

|   | Pkt. | Oz.   | ¼ Lb. |  |
|---|------|-------|-------|--|
| <b>470 Southport Red Globe</b> .....  | .10  | .35   | 1.25  |  |
| Deep red skin, small neck, extra good keeper.   |      |       |       |  |
| <b>472 Southport White Globe</b> .....  | .10  | .50   | 1.75  |  |
| Thin skin, early maturing, not a good keeper.   |      |       |       |  |
| <b>473 Southport Yellow Globe</b> .....   | .10  | .40   | 1.35  |  |
| Most popular variety, good yielder and keeper, globe shape, thick skin which does not peel off easily.  |      |       |       |  |
| <b>476 Mountain Yellow Danvers</b> .....  | .10  | .40   | 1.35  |  |
| Early, nearly globe shaped.   |      |       |       |  |
| <b>478 Prizetaker</b> .....   | .10  | .40   | 1.35  |  |
| Large, yellow, globe shaped. To get them real early the seed can be started under glass, and the plants set out when the ground is ready in April or early May. |      |       |       |  |
| <b>479 Sweet Spanish (Riverside Strain)</b> .....   | .10  | .50   | 1.75  |  |
| Fine golden yellow Spanish type, globe shaped, light yellow skin, pure white flesh, crisp and mild. Grows quite large.  |      |       |       |  |
| <b>480 White Sweet Spanish</b> .....  | .10  | .50   | 1.75  |  |
| Large white, very mild.   |      |       |       |  |
| <b>481 White Portugal</b> .....   | .10  | .35   | 1.25  |  |
| Small white onion for pickling or sets.   |      |       |       |  |
| <b>483 White Bunching</b> .....   | .05  | .30   | 1.00  |  |
| Quick growing white onion used mostly for green onions.   |      |       |       |  |
| <b>485 Ebenezer</b> .....   | .10  | .35   | 1.25  |  |
| Straw yellow, globe shaped, solid, good keeper, slow to mature. Seeds mostly used for growing sets for next year's onions.                                      |      |       |       |  |
| <b>489 White Welsh</b> .....  | .10  | .35   | 1.25  |  |
| Grows a strong green top but no onion at the root. Good only for green onions. Will stand through our winters in most cases.                                    |      |       |       |  |
| <b>490 Chives or Grass Onion</b> .....  | .10  | ..... | ..... |  |
| Very small grass like perennial onion, used only for its green tops, which appear in early spring.  |      |       |       |  |

**PARSLEY**

*Sow in rows not closer than 8 inches apart and thin out to 3 or 4 inches between each plant.*

|   | Pkt. | Oz. | ¼ Lb. | Lb.  |
|---|------|-----|-------|------|
| <b>501 Garnishing or Giant Mosscurled</b> .....                                   | .05  | .10 | .30   | 1.00 |
| Very large-leaved, curled.  |      |     |       |      |
| <b>502 Champion Mosscurled</b> .....  | .05  | .10 | .30   | 1.00 |
| Finely double curled, dark green.   |      |     |       |      |
| <b>503 Paramount</b> .....  | .05  | .10 | .30   | 1.00 |
| Dark green, fine curled, large plant requiring more space for proper development. |      |     |       |      |
| <b>505 Hamburg Rooted</b> .....   | .05  | .10 | .30   | 1.00 |
| Smooth leaves, long parsnip-like white roots.                                     |      |     |       |      |

**PARSNIP**

*Sow in rows about a foot apart and thin out to about 6 inches between each plant. Sow fairly thick and only deep enough to get in the moisture of the soil.*

|                               |     |     |     |      |
|-------------------------------|-----|-----|-----|------|
| <b>510 Hollow Crown</b> ..... | .05 | .10 | .30 | 1.00 |
| Medium long, thick shoulder.  |     |     |     |      |

## PEAS

*Smooth seeded varieties can be planted very early. The wrinkled varieties are apt to rot if the weather turns wet and cold before they germinate. The short vined does not require anything to climb on, but to get the full benefit of the taller and later kinds, they should have a trellis of some kind to climb on.*

|     |  |                  | ¼ Lb. | Lb. | 10 Lb. |
|-----|--|------------------|-------|-----|--------|
| 521 | <b>Extra Early Mammoth Podded</b> .....  | 100 lbs. \$15.00 | .10   | .25 | 2.00   |
|     | Very early, smooth seeded, vines about 3 feet, pods about 3½ inches, well filled.  |                  |       |     |        |
| 522 | <b>Superb</b> .....  | 100 lbs. \$15.00 | .10   | .25 | 2.00   |
|     | 2½ feet vines, pods about 4 inches long, very early, prolific, smooth-seeded.  |                  |       |     |        |
| 524 | <b>Laxtons Progress</b> .....  | 100 lbs. \$15.00 | .10   | .25 | 1.70   |
|     | Earliest long podded variety, wrinkled seeds, vines about 1½ feet. Good quality.   |                  |       |     |        |
| 526 | <b>American Wonder</b> .....   |                  | .10   | .25 | 2.00   |
|     | Early, dwarf, small pods, good quality.  |                  |       |     |        |
| 527 | <b>Little Gem</b> .....  |                  | .10   | .25 | 2.00   |
|     | Very productive, good quality, small pods, vines about 2 ft.   |                  |       |     |        |
| 528 | <b>Little Marvel</b> .....   |                  | .10   | .25 | 2.00   |
|     | Productive, fine quality, pods 3 inches, vines 18 inches.  |                  |       |     |        |
| 531 | <b>Dwarf Telephone</b> .....   |                  | .10   | .25 | 2.00   |
|     | Vines 2 feet, pods 4", light green.  |                  |       |     |        |
| 534 | <b>Worlds Record</b> .....   |                  | .10   | .25 | 2.00   |
|     | Very good quality, pods 3½ to 4 inches, well filled, vines 2½ feet.  |                  |       |     |        |
| 535 | <b>Thomas Laxton</b> .....   | 100 lbs. \$15.00 | .10   | .25 | 1.80   |
|     | Vines about 2½ feet, early and prolific.   |                  |       |     |        |
| 537 | <b>Gladstone</b> .....   |                  | .10   | .25 | 2.00   |
|     | Late variety, vines 3½ feet, very productive, long, slightly curved but shapely pods. 10 to 12 peas in a pod.  |                  |       |     |        |
| 538 | <b>Giant Stride</b> , (Asgrow 40, Wyoming Wonder) .....  | 100 lbs. \$15.00 | .10   | .25 | 1.80   |
|     | New special market variety, wilt resistant. Vines about 2 feet, pods 5 to 6 inches, round, dark green, pointed and curved at tip. Good bearer, well filled pods. |                  |       |     |        |
| 540 | <b>Prince Edward</b> .....   | 100 lbs. \$15.00 | .10   | .25 | 1.70   |
|     | 4 ft. vines, late, pods large, dark green, well filled, good quality.  |                  |       |     |        |
| 541 | <b>Alderman</b> .....  | 100 lbs. \$15.00 | .10   | .25 | 1.70   |
|     | Tall, late, large green pods.  |                  |       |     |        |
| 542 | <b>Telephone</b> .....   |                  | .10   | .25 | 2.00   |
|     | Grows about 4 ft.; large, well-filled pods with sweet green peas.  |                  |       |     |        |
| 546 | <b>Mammoth Melting Sugar</b> .....   |                  | .10   | .35 | .....  |
|     | Grows about 4 ft. tall, edible pods. Very large, curved pods filled with very sweet, small green peas.   |                  |       |     |        |

## PEPPER

*For best result sow Pepper seed under glass in March or early April, and have strong plants to set out in late May or early June. Pepper prefers a warm, and not too rich soil.*

|     |   |  | Pkt. | Oz. | ¼ Lb. |
|-----|---|--|------|-----|-------|
| 556 | <b>Harris Early Giant</b> .....   |  | .05  | .35 | 1.25  |
|     | Very early. Size of fruit about 4 inches long and 3½ inches in diameter. start setting close to the ground. Most popular variety. |  |      |     |       |
| 557 | <b>Large Red</b> .....  |  |      | .50 | 1.75  |
|     | Local grown seeds, large thick walled early pepper.   |  |      |     |       |
| 558 | <b>Bull Nose or Large Bell</b> .....  |  | .05  | .30 | 1.00  |
|     | Early, prolific, fruit short and thick, meat sweet and thick.   |  |      |     |       |
| 560 | <b>Early Crimson Giant</b> .....  |  | .05  | .40 | 1.50  |
|     | Early, large, good bearer, thick flesh.   |  |      |     |       |
| 561 | <b>Chinese Giant</b> .....  |  | .05  | .50 | ..... |
|     | Largest variety, good quality, not very prolific.   |  |      |     |       |
| 563 | <b>Asgrow King (Improved Ruby King)</b> .....   |  | .05  | .30 | 1.00  |
|     | Fairly early and prolific, fruit 5 inches long, 3½ inches in diameter, slightly tapered, 3 lobed.                                 |  |      |     |       |

## PEPPER—Continued

The plants can be transplanted or thinned out as they should have at least a foot between each. | Pkt. .05 | Oz. .10 | ¼ Lb. .25 | Lb. .80 |

Tomato Kondine

Squash Table Queen

## SQUASH

*Plant 6-8 seeds in hills 5-6 feet apart or between rows of corn.*

|   | Pkt. | Oz. | $\frac{1}{4}$ Lb. | Lb.   |
|---|------|-----|-------------------|-------|
| <b>660 Des Moines or Table Queen</b> .....  | .05  | .10 | .30               | 1.00  |
| Small, acorn shaped, dark green, deep ribbed, good quality.   |      |     |                   |       |
| <b>661 Des Moines Larger Type</b> .....   | .05  | .10 | .35               | 1.25  |
| About one-third larger than ordinary strain.  |      |     |                   |       |
| <b>663 Hubbard—Green Warded</b> .....   | .05  | .10 | .30               | 1.00  |
| Large, dark green, heavily warted, thick meat, good keeper.   |      |     |                   |       |
| <b>664 Blue Hubbard</b> .....   | .05  | .10 | .30               | 1.00  |
| Blue-grey, large, good quality and keeper.  |      |     |                   |       |
| <b>665 Buttercup</b> .....  | .05  | .15 | .40               | 1.50  |
| New, rather small turban shaped, very fine quality and good keeper.   |      |     |                   |       |
| <b>667 Early Summer Crockneck</b> .....   | .05  | .10 | .30               | 1.00  |
| Long, slender, crooked, yellow, Summer Squash.  |      |     |                   |       |
| <b>669 Straight-neck Summer Squash</b> .....  | .05  | .10 | .30               | 1.00  |
| <b>670 Early White Bush Scallop</b> .....   | .05  | .10 | .30               | 1.00  |
| White Patty Pan, very prolific, small, flat, white, crinkled edge. Fine vegetable for use when young or about 2 inches in diameter. |      |     |                   |       |
| <b>671 Turban Squash</b> .....  | .05  | .20 | .80               | ..... |
| Large, weighing 6 to 8 lbs. Variegated colors, mostly yellow, green and red.  |      |     |                   |       |
| <b>672 Turk's Cap</b> .....   | .05  | .20 | .60               | ..... |
| 5 to 6 inches in diameter, the swelling at the lower half variegated yellow, green and red.   |      |     |                   |       |
| <b>673 Banana Squash</b> .....  | .05  | .20 | .....             | ..... |
| Long, dark grey-green, late.  |      |     |                   |       |
| <b>674 Sweet Potato Squash</b> .....  | .05  | .15 | .40               | ..... |
| Small, very sweet and delicate.   |      |     |                   |       |
| <b>675 Zucchini</b> .....   | .05  | .10 | .30               | 1.00  |
| Dark green, mottled or striped yellow.  |      |     |                   |       |
| <b>676 Vegetable Spaghetti</b> .....  | .05  | .20 | .....             | ..... |
| When boiled it looks something like golden spaghetti.   |      |     |                   |       |

## SWEET CORN

*Plant 3 or 4 seeds in a hill and for the early varieties have at least 1½ feet between hills. For later varieties, 2 to 2½ feet. We have tried to list the varieties below according to their earliness. The earliest first and the late last.*

|     |   | ¼ Lb.            | Lb. | 10 Lb.   |
|-----|---|------------------|-----|----------|
| 680 | <b>Golden Gem</b> .....<br>Short stalk and small ears.  | .10              | .25 | 1.80     |
| 681 | <b>Sunshine</b> .....<br>Very early, large ears, creamy yellow.   | .10              | .25 | 1.80     |
| 682 | <b>Spanish Gold</b> .....<br>Short stalk, fair size ears, good quality.   | 100 lbs. \$14.00 | .10 | .25 1.80 |
| 683 | <b>Golden Hummer</b> .....<br>Very early, fairly large ears.  | .10              | .25 | 1.80     |
| 684 | <b>Kings-cross Bantam</b> .....<br>Double-crossed Golden Bantam, nearly all ears ready at one time. Very early yellow.  | 50 lbs. \$13.00  | .15 | .40 3.00 |
| 685 | <b>Hybrid Blend Bantam</b> .....<br>65-75 day; 8 row Golden Bantam; mixed of several crosses, thereby giving a better corn over a longer season than the Kings-cross. | .10              | .35 | 3.00     |
| 686 | <b>Golden Cross Bantam</b> .....<br>87 day; 10-12 row early Bantam Hybrid.  | .10              | .40 | 3.50     |
| 687 | <b>Eight Row Single Cross Bantam</b> .....<br>Hybrid M.; 62 day. A favorite with Truck Gardeners.   | 50 lbs. \$20.00  |     | 5.00     |
| 688 | <b>Extra Early Golden Bantam</b> .....<br>Special early variety.  | 100 lbs. \$14.00 | .10 | .25 1.80 |
| 689 | <b>Golden Bantam</b> .....<br>Standard yellow Sweet Corn.   | 100 lbs. \$14.00 | .10 | .25 1.80 |
| 693 | <b>Whipples Early Yellow</b> .....<br>14 row ears, good quality and producer.   | 100 lbs. \$16.00 | .10 | .25 2.00 |
| 696 | <b>Golden Country Gentleman</b> .....<br>New corn almost exactly like Country Gentlemen, except this has the same yellow color as Golden Bantam.                      | .10              | .25 | 2.00     |
| 697 | <b>Black Mexican</b> .....<br>Very sweet, reddish black ears.   | .10              | .30 |          |
| 699 | <b>Bantam Evergreen</b> .....<br>Very sweet, large yellow, tall stalk.  | 100 lbs. \$14.00 | .10 | .25 1.80 |
| 703 | <b>Stowell's Evergreen</b> .....<br>Tall, late, very large white ears.  | .10              | .25 | 1.80     |

## TOMATO

*One method to grow early Tomatoes is to plant strong, healthy plants of a good early variety, about 1½ feet apart, in rows about 3 feet apart, then, at the same time set along side each plant a fairly heavy stake. A Tonkin cane, 5 ft. long and ½ to ¾ inch thick is good. As the plant grows, the main or center stem should be tied loosely with Raffia to the stake and all side-shoots or suckers trimmed off. When 5 or 6 flower clusters are set, the top of the plant should also be taken off, but one leaf must be left over the top flower. That way there will not be so many Tomatoes on the plants, as when letting it grow its own way, but the tomatoes will mature much earlier and the fruit will be perfect. If more than 5 or 6 clusters are wanted from a plant, the two bottom side branches can be left growing and tied on the stake, and stopped when 3 clusters are set. Varieties are listed as to their earliness, the earliest first.*

|     |   | Pkt. | Oz.   | ¼ Lb. |
|-----|---|------|-------|-------|
| 720 | <b>Special Kondine</b> .....<br>Forcing strain for Greenhouses, disease resistant, very heavy bearer, fruit rather small, but extra good quality. Danish Greenhouse grown seed. | .75  | 10.00 |       |
| 721 | <b>Potentate</b> .....<br>Slightly larger than Kondine, otherwise similar in all respects.  | .75  |       |       |
| 727 | <b>Best of All</b> .....<br>Newer English variety, larger fruits.   | .25  | 1.25  |       |

## TOMATOES—Continued

|     |  | Pkt. | Oz.   | ¼ Lb. |
|-----|--|------|-------|-------|
| 723 | <b>Danish Export</b> .....<br>Medium to small size fruit of extra fine quality, very heavy bearer. Good for Greenhouse growing and out-doors in the north.                                       | .10  | .60   | ..... |
| 724 | <b>Comet Improved</b> .....<br>Larger than Danish Export. Used to be the main Greenhouse Tomato in England, but now superceded by Condine.   | .10  | .60   | ..... |
| 725 | <b>Bison</b> .....<br>Very early, produces a good crop without pruning.  | .10  | .40   | ..... |
| 730 | <b>Special Earliana</b> .....<br>Does not resemble Earliana in any way but the name and earliness. The fruit is almost round, does not crack, is more firm. We can highly recommend this strain. | .10  | .75   | ..... |
| 734 | <b>Earliana</b> .....<br>Regular, good, early strain.  | .05  | .35   | 1.25  |
| 737 | <b>Burbank</b> .....<br>Very good quality, good size, early.   | .10  | .50   | ..... |
| 739 | <b>Break-O-Day</b> .....<br>Blight resistant, globe shaped.  | .05  | .40   | ..... |
| 740 | <b>Scarlet Dawn</b> .....<br>New variety, slightly earlier than John Baer. Medium large fruit, thick wall structure, globular, smooth, bright scarlet.   | .10  | .35   | 1.25  |
| 743 | <b>John Baer</b> .....<br>Round, smooth, medium size, very good standard variety for main crop.  | .05  | .35   | 1.25  |
| 744 | <b>John Baer Select</b> .....  | .05  | .60   | 2.00  |
| 745 | <b>Bonny Best</b> .....<br>Very good quality, firm and solid. Good for main crop.  | .05  | .35   | 1.25  |
| 746 | <b>Red Head</b> .....<br>Bright red, nearly globe shaped, good quality for main crop.  | .05  | .35   | 1.25  |
| 751 | <b>Matchless</b> .....<br>Large, smooth, bright red.   | .05  | .40   | ..... |
| 753 | <b>Pritchard or Scarlet Topper</b> .....<br>Extra good disease resistant variety, bright scarlet.  | .05  | .35   | 1.25  |
| 758 | <b>Dwarf Champion</b> .....<br>Short stalk, sturdy plants, fine flavored, pink.  | .05  | .35   | 1.25  |
| 760 | <b>Beauty</b> .....<br>Pinkish purple, heavy, fairly large, fine flavored.   | .05  | .40   | ..... |
| 762 | <b>Beefsteak</b> .....<br>Very large, late.  | .05  | .50   | ..... |
| 763 | <b>Marglobe</b> .....<br>Disease resistant, fairly late, good quality.   | .05  | .35   | 1.25  |
| 764 | <b>Tangerine</b> .....<br>Orange yellow, large fruit.  | .10  | ..... | ..... |
| 767 | <b>Rutgers</b> .....<br>New late variety, deeper than its horizontal diameter, small seed cavity, heavy cross walls, ripens from inside.   | .05  | .35   | 1.25  |
| 768 | <b>Norton—Wilt Resistant Stone</b> .....<br>Standard late variety, very firm, smooth and bright, extra good quality.   | .05  | .35   | 1.25  |
| 770 | <b>Golden Queen</b> .....<br>Large yellow.   | .05  | .50   | ..... |
| 771 | <b>Snowball</b> .....<br>Creamy white, medium size fruit.  | .10  | ..... | ..... |
| 773 | <b>Oxheart</b> .....<br>Very large, heart shaped, fine flavored.   | .05  | .40   | ..... |
| 776 | <b>Ponderosa</b> .....<br>Very large, fine flavored, pink.   | .05  | .40   | 1.40  |
| 777 | <b>Yellow Ponderosa</b> .....<br>.....   | .05  | .50   | ..... |
| 778 | <b>Yellow Peach</b> .....<br>.....   | .05  | .50   | ..... |
| 779 | <b>Yellow Plum</b> .....<br>Small yellow, plum shaped.   | .05  | .40   | ..... |
| 780 | <b>Yellow Pear</b> .....<br>Small, yellow, pear shaped.  | .05  | .50   | ..... |
| 781 | <b>Red Cherry</b> .....<br>Cluster of red fruit, slightly larger than cherries.  | .05  | .60   | ..... |
| 786 | <b>Ground Cherry or Yellow Husk</b> .....<br>Yellow sweet fruit inside grey husk.  | .05  | .50   | ..... |

## TURNIP

*For successive crop, this can be seeded from early April till late August.*

|     |  | Pkt. | Oz. | $\frac{1}{4}$ Lb. | Lb.  |
|-----|--|------|-----|-------------------|------|
| 793 | <b>Early Purple Top White Milan</b> .....  | .05  | .10 | .30               | 1.00 |
|     | Smooth, sweet flavored, flat.  |      |     |                   |      |
| 795 | <b>Purple Top Strap Leaf</b> .....   | .05  | .10 | .30               | 1.00 |
|     | Flat, very early.  |      |     |                   |      |
| 798 | <b>Snowball</b> .....  | .05  | .10 | .30               | 1.00 |
|     | Globe shaped, white, early.  |      |     |                   |      |
| 800 | <b>Early Purple Top Globe</b> .....  | .05  | .10 | .25               | .80  |
|     | Can be picked when small for cooking or left to grow large for cattle feed. Not a good keeper. |      |     |                   |      |
| 806 | <b>Danish Bortfelder</b> .....   | .05  | .10 | .25               | .80  |
|     | Large yellow, grows very large, good winter keeper.  |      |     |                   |      |

SPINACH  
JULIANA

# FLOWER SEEDS

We have keyed most of the varieties as to whether annuals, perennials or pot plants, and have used the following designations:

- a annuals
- b biennials
- c climbers
- p perennials
- g greenhouse potplants
- r can be used in rock gardens
- \* Perennials which can be used in rock garden.

When ordering either the name or the number in front of the name can be used. Not necessary to mark both.

Snapdragons seem to be among the most popular flowers, but the last few years a rust or fungus has been attacking them, and where that has happened the growers have quit growing them. California has now developed many varieties which are practically immune to that disease, and where rust has been formed in Snapdragon, we suggest planting only the kinds marked "Rust Resistant" in our list. These varieties are resistant to rust.

|--|-----|-------|-------|

Calceolaria is one of the most popular pot plants and several hybrids have been developed. One of the newest and best in the Grandiflora type is the Mona strain. This is a dwarf or low growing strain, uniform in size and very floriferous. The flowers are large, tigered or spotted in beautiful color combinations.

CALCEOLARIA MONA STRAIN

**g CALCEOLARIA**

|   | Pkt. | ¼ Oz. | Oz.   |

| 1703 Orange King, bright orange .....                     | .10 | .20 * | .60   |

CALENDULA CAMPFIRE

Calendula is one of easiest grown annuals and can be sown where wanted, but transplants very easily. Many varieties are to be had and they are all good. Campfire is about the deepest orange and Lemon Queen the lightest yellow. The rest of the varieties are also more or less orange or yellow in different shapes of flowers.

| 1863 Childsii, Chinese woolflower, mixed.....                  | .10 | .40   | ..... |

*Sow in February under glass and set out in open ground when danger of frost is over. Plumosa pyramidalis can be sown in open ground in May. The Lilliput and Cristata varieties makes good pot plants.*

Centaurea Cyanus (Cornflower or Bachelors Button) are easily grown and can be had in several good colors, although the blue is the most popular. Lately a dwarf compact type, Jubilee Gem blue, has been introduced from England, and this year a lavender or lilac color is added to that. The Gem type is quite distinct from the old original type in being dwarf compact, with flower stems branching up from the base of the plant.

| 2094 | All colors mixed .....       | ..... | .....     | .....       |

*Cyclamen are mostly sown in August in Greenhouses.*

Cosmos Sensation was introduced a few years ago by Mr. Edlund of White Bear, Minnesota, and is getting more and more popular. This type is much larger than the old type Cosmos and just as early as the Early Mammoth. It was introduced as a mixture only, mostly pink, but now all three colors can be had separately.

## COSMOS SENSATION

## a COSMOS

|  |  | Pkt. | ¼ Oz. | Oz.   |
|--|--|------|-------|-------|
| 2037   | Early Express Pink.....  | .10  | .25   | ..... |
| 2038   | " " Crimson .....  | .10  | .25   | ..... |
| 2039   | " " White .....  | .10  | .25   | ..... |
| 2040   | " " Mixed .....  | .10  | .25   | ..... |
| <i>Blooms in less than 2 months from seed. Flowers medium size, plants half tall.</i>                                  |  |      |       |       |
| 2044   | Early-flowering Mammoth, mixed, large-flowered.....  | .05  | .15   | .50   |
| 2049   | Sensation, new, very large, blooms 8 to 10 weeks after seeding. Flowers 4 to 6 inches across, long strong stems. Mixed colors..... | .10  | .25   | .80   |
| 2050   | " Purity, white .....  | .10  | .30   | 1.00  |

| 2055   | " " crimson .....  | .15  | .50   | ..... |
| 2062   | Klondike Orange Flare, new early-blooming, beautiful clear orange .....  | .10  | .25   | .80   |
| 1651   | Miniature Yellow .....   | .10  | .15   | ..... |
| <i>Sow under glass in late March and set out in late May or early June, or sow in open ground after middle of May.</i> |  |      |       |       |

## acCYPRESS VINE

|  |                                |     |     |     |
|--|--------------------------------|-----|-----|-----|
| 2106   | Ipomoea Quamoclit, mixed ..... | .05 | .10 | .30 |
| <i>Sow in small pots in early April or in open ground in late May. A quick growing climber, small foliage, many flowers.</i> |                                |     |     |     |

## a CYNOGLOSSUM

|      |  | Pkt. | ¼ Oz. | Oz.  |
|------|--|------|-------|------|
| 2099 | Amabile, blue, Chinese Forget-me-not.....                | .05  | .10   | .30  |
| 2102 | " pink .....   | .10  | .15   | .50  |
| 2103 | " Fairy Blue, Cambridge Blue.....                        | .10  | .15   | .50  |
| 2104 | " White .....  | .10  | .15   | .50  |
| 2105 | " Firmament, dwarf compact, blue.....                    | .10  | .50   | 1.75 |
| 2101 | Linifolium, white, a very useful flower for cutting..... | .05  | .10   | .20  |

*Sow in open ground in May or later. Amabile should be spaced at least 8 in. apart. The Linifolium should not be thinned out as they do better when close together.*

## a DATURA (Trumpet Flower)

|      |  |     |     |       |
|------|--|-----|-----|-------|
| 2123 | Wrightii, Angels Trumpet, white, heavy, bushy growth, long trumpet-like flowers..... | .10 | .20 | ..... |
| 2124 | Fastuosa, fl. pl. double trumpet, mixed.....   | .10 | .20 | ..... |

*Sow in small pots in late March and set out when danger of frost is over, or sow in open ground in late May. The plants should be spaced 1½ to 2 feet apart.*

DELPHINIUM—Blackmore and Langdon Strain

## p DELPHINIUM

|       |   | Pkt. | ¼ Oz. | Oz.  |
|-------|---|------|-------|------|
| 2131  | Belladonna, Cliveden Beauty, light blue.....                                    | .10  | .50   | 1.60 |
| 2132  | Lamartine, sky blue, cream center.....  | .25  | 1.25  |      |
| 2133  | Bellamosum, dark blue Improved strain.....                                      | .10  | .50   | 1.60 |
| 2135  | Cardinale, scarlet .....  | .10  | .70   |      |
| 2137  | Chinensis Grandiflorum, Chinese Larkspur, clear blue<br>3 feet .....            | .10  | .20   | .70  |
| 2138  | Chinensis, Butterfly, blue, 2 feet.....   | .10  | .25   | .70  |
| 2139  | “ white .....   | .10  | .40   |      |
| 2140  | “ reddish lilac .....   | .10  | .40   |      |
| 2141  | “ Cambridge Blue, light blue, 3 ft.....   | .10  | .40   |      |
| 2142r | “ Tom Thumb, deep blue, 1 ft.....   | .10  | .30   |      |
| 2143  | “ Porcelain Blue .....  | .10  | .50   |      |
| 2148  | Hybridum, single mixed, prize strain.....                                       | .10  | .50   | 1.60 |
| 2152  | “ Blackmore & Langdon strain, large-<br>flowered, very choice colors, tall..... | .20  | .80   | 3.00 |
| 2153  | “ Monarch strain, very choice selection.....                                    | .25  | 1.25  | 4.00 |
| 2156  | “ Selecta, extra choice double Hybrids.....                                     | .25  | 1.25  | 4.00 |
| 2158  | “ Wrexham or Hollyhock strain, mixed.....                                       | .25  | 1.00  |      |
| 2159  | Pacific Hybrids, Round Table series, mixture of many<br>new Hybrids .....       | .50  | 5.00  |      |
| 2160  | “ “ Pastel, lavender shades .....   | .50  | 3.00  |      |
| 2161  | “ “ Summer Skies series, clearest light<br>blue with white bee .....            | .50  | 4.00  |      |
| 2162  | “ “ King Arthur series, royal violet with<br>white bee .....                    | .50  | 4.00  |      |
| 2163  | “ “ Galahad series, best white.....   | .50  | 7.00  |      |
| 2165  | “ “ Black Knight series, darkest of all the<br>Pacific Hybrids .....            | .50  | 5.00  |      |
| 2166  | “ “ Guinevere series, light pink-lavender<br>with white bee .....               | .50  | 4.00  |      |
| 2164  | “ “ mixed, very good mixture, containing<br>white .....                         | .50  | 3.00  |      |
| 2169  | Nudicaule, red .....  | .25  |       |      |
| 2170  | Sulphureum, (Zalil) yellow .....  | .50  |       |      |

*The Chinensis varieties will bloom the first season if sown under glass not later than March. The other varieties can be sown in May or June and transplanted as soon as large enough. Should give good satisfaction the following Summer. Cardinale, Nudicaule and Sulphureum are very doubtful for wintering over in this vicinity, but farther south they should be hardy. For annual Delphinium see Larkspur.*

## DAHLIA

|      |  |     |      |      |
|------|--|-----|------|------|
| 2111 | Cactus-flowered, double mixed. Very choice collection  | .25 | 1.75 |      |
| 2112 | Collarette, mixed, single with a ring of petals around<br>the center .....                   | .10 | .40  |      |
| 2113 | Colossal, very large single .....  | .10 | .50  |      |
| 2114 | Coltness Hybrids, 1½ ft. ....  | .10 | .35  | 1.25 |
| 2119 | “ white .....  | .15 | .65  |      |
| 2120 | “ yellow .....   | .15 | .65  |      |
| 2121 | “ scarlet glow .....   | .15 | .65  |      |
| 2116 | Pigmy, (Mignon), very dwarf mixed.....   | .10 | .60  |      |
| 2117 | Pompon, mixed, double, small-flowered.....   | .25 | 1.25 |      |
| 2118 | Unwin's Dwarf Hybrids, Semi-Double and Single.<br>Highly recommended for bedding Dahlia..... | .10 | .60  | 2.00 |

*Sow in March and set the plants in open ground in early June. Nearly all will bloom the same summer and the desired tubers can be dug up and stored over winter.*

*Sow in May in open ground.*

Larkspur is a pretty annual, doing well in any fairly good soil. Germinates best when rather cool. There are so many beautiful colors to be had and they are all good. The Imperial types differ from the stock-flowered in that they are taller, branches from the base, and have more longstemmed spikes.

LARKSPUR GIANT IMPERIAL

**a LARKSPUR, ANNUAL** (For perennial see Delphinium)

|       |  | Pkt. | ¼ Oz. | Oz.  |
|-------|--|------|-------|------|

Dwarf French Marigold are very pretty border plants and all of them are easy to grow. Harmony has a beautiful color combination of reddish maroon with a center of golden yellow. Occasionally a clear golden yellow may show up without the maroon border, but that is also a pretty flower.

| 2820 | Miss Jekyll, sky blue, blooms set in between feathery foliage ..... | .05 | .10 | .30 |
|------|---|-----|-----|-----|

*Sow in open ground in May.*

NEMESIA EDELWEISS

Nemesias are some most beautiful bright colored small plants. Their blooming season is not so long as so many other plants but they make up for that in being so clear and bright while in bloom. Edelweiss Nemesia is the nearest to a pure White Nemesia we have seen, has hardly no center at all.

## ■ NEMESIA

|      |  | Pkt. | ¼ Oz. | Oz.   |
|------|--|------|-------|-------|
| 2795 | Grandiflora Compacta Triumph, mixed, 8 inches..... | .10  | .60   | ..... |

|      | Blue Brocade, rich violet purple.....     | 1.00 | 2.00 | ..... |

Three \$2.00 Pkts. or six \$1.00 Pkts. for \$5.00.

The culture of Petunias are very easy for the small-flowered or cheaper varieties, as these can be sown both inside and outside with a fair expectation of good results. For the large-flowered or better varieties it is more difficult to get them started. For May blooming, they should be sown in a fairly warm place in January or February, and the seeds just sprinkled on the surface of very fine sifted soil and kept moist. As soon as large enough to move, they can be transplanted and later put in pots. The seeds that produce the double flowered plants, usually are weaker than the single flowered and in transplanting the double varieties, particular care should be taken.

*Sow in pots in March or April and set out when danger of frost is over, or sow in open ground in late May.*

Rudbeckia are rather robust, strong growers, and very good both for show in the garden and for cutting. They should not be crowded too much as they like to spread out some. Kelvedon Star is a deep golden yellow with a dark brown center. Has been available only a few years.

*Sow in March under glass and plant out in late May or sow  
in open ground in May.*

SALVIA

Salvia Splendens are some of the brightest red flowers we have for the garden. The early dwarf varieties will start blooming in June if started early and the later taller kinds we usually see full of red flowers, even after the leaves have fallen off from freezing. White, pink and purple can also be had but those are not so common and not so bright.

| 4057 | " Valencia, burnt orange  | .10  | .25   | .80   |

ZINNIA FANTASY

Fantasy Zinnia are odd shaped with twisted or curved petals. The flowers are about the size of the Double Giants. Formerly they could only be had in a mixture of colors but now there are four separate colors to be had.

## LAWN SEEDS

(Prices Variable)

|  | Per<br>Lb. | 10<br>Lbs. |
|--|------------|------------|
| <b>Kentucky Blue Grass</b> , fancy grade.....  | .35        | \$3.25     |
| "    "    "    very heavy grade, 98% Purity.....   | .45        | 4.25       |
| One of the best grasses for permanent lawns. Slow to germinate but when once established, makes a beautiful lawn.                                    |            |            |
| <b>Rough Stalked Meadow Grass</b> —(Poa Trivialis).....  | 1.00       | .....      |
| Deep green, fairly quick to germinate, does well in partly shaded places.  |            |            |
| <b>Wood Meadow Grass</b> (for shade).....  | 1.20       | .....      |
| Only recommended for shade, slow to germinate and to get established. Deep green.  |            |            |
| <b>Red Top</b> , solid seed, fancy grade.....  | .30        | 2.75       |
| Quick germination and growing. Light green.  |            |            |
| <b>Astoria Creeping Bent Grass</b> .....   | 1.20       | .....      |
| Quick germination, light green, thin fine blades and spreads out by the roots.   |            |            |
| <b>Seaside Bent Grass</b> .....  | 1.20       | .....      |
| <b>Rye Grass</b> , good for 1 year lawns only.....   | .20        | 1.70       |
| Domestic type, and a mixture of English and Italian grasses. Recommended where quick effect or growth is desired. Only partly hardy in this climate. |            |            |
| <b>Italian Rye Grass</b> .....   | .25        | 2.25       |
| Rather coarse. Used some for lawns where a quick growing, tough sod is desired. Usually lasts 2 years.   |            |            |
| <b>White Clover</b> , extra clean.....   | 1.20       | .....      |
| <b>Wild White Clover</b> , wild type, English (Kent).....  | 1.20       | .....      |
| <b>Danco Mixture</b> . Our most popular mixture for permanent lawns.....   | .45        | 4.25       |
| Best mixture for permanent, luxurious lawns. Contains Kentucky Blue Grass, Red Top, Poa Trivialis, Creeping Bent and White Clover.                   |            |            |
| <b>Danco Special Mixture</b> , made up of only the highest grade of Ky. Blue Grass, Poa Trivialis, Red Top and Bent Grass.....                       | .60        | 5.75       |
| <b>Quick Result Mixture</b> .....  | .35        | 3.25       |
| Where quick growth is desired we recommend this mixture. Contains Kentucky Blue Grass, Red Top, Rye Grass and White Clover.                          |            |            |
| <b>Shady Mixture</b> .....   | .55        | 5.25       |
| Especially prepared for shady places. Contains Kentucky Blue Grass, Red Top, Rough Stalked Meadow Grass, Wood Meadow and White Clover.               |            |            |
| <b>Sterling Mixture</b> .....  | .40        | 3.75       |
| A very popular mixture, containing Kentucky Blue Grass, Red Top and White Clover.  |            |            |
| <b>Red Fescue</b> (Chewings Fescue).....   | 1.00       | .....      |
| <b>Meadow Fescue</b> .....   | .25        | 2.00       |

## SUGGESTIONS FOR MAKING A LAWN

In making a new lawn, the soil should be spaded very thoroughly and if any Quack-grass is present, all the roots should be picked out. The surface must be made level at the same time. After leveling, the soil should be either tramped down or rolled with a heavy roller to get the foundation firm. Seed should be broad-cast very evenly at the rate of 1 lb. of good clean seed to about 200 square feet. The seed should then be either covered with a thin layer of soil or chopped down and the soil rolled again and watered. For repairing an old lawn we recommend to scratch the sod thoroughly and deep with a rake so the dead grass can be cleared off and the surface of the soil rough, then sprinkle the seed. Now go over the lawn again with the back or smooth side of the rake to cover up as much seed as possible. Another method will be to sprinkle seed on the old lawn and then cover with at least ½-inch of finely pulverized peat moss. Once in a while the lawn, especially an old one, should be given an application of some good plant food containing Nitrogen.

## GLADIOLUS

Prices are for No. 1 bulbs, state inspected.

Price for 1 bulb is one-tenth of the dozen price.

Gladiolus can be planted during May and June.

Our bulbs are grown in Oregon, and although there is no thrip on the bulbs when shipped the bulbs and the growing plants may be attacked by thrip when growing. It is recommended to spray with a solution made of  $\frac{1}{4}$  lb. Tartar Emetic to 1 lb. of Brown Sugar in 6 Gallons of Water.

We expect to have several other kinds of bulbs for Spring planting.

**Roses**—In May we expect to have a good assortment of potted growing Roses, ready to set out, at **\$1.00** each.

## FERTILIZERS

### MIXTURES OR COMBINATIONS

**Lawn and Garden Fertilizers** (Armour's)—Combination of 4% Nitrogen, 8% Phosphoric Acid, 6% Potash. Quick acting, for general use on lawns and gardens. 25 lbs. **\$1.00**—50 lbs. **\$1.75**—100 lbs. **\$3.00**. 5 lbs. **35c**.

**Special Tree Food** (Armour's)—10% Nitrogen, 8% available Phosphoric Acid and 6% Potash. Good for all types of shade trees and Evergreens. For Shade Trees apply in holes drilled 16 inches deep and 2 feet apart under the drip of outside branches at the rate of  $\frac{3}{4}$  lb. per each foot in height of tree up to 50 lbs. per tree. For Evergreens use  $\frac{1}{2}$  lb. per foot in height of tree and work into surface soil. 100 lbs. **\$3.35**

**Special Turf Fertilizer** (Armour's)—A complete grass plant food. 10% available Nitrogen, 8% Phosphoric Acid and 6% Potash. For Golf-Course Fairways, broadcast 500 lbs. per acre in early spring or 300 lbs. per acre in early fall. For Greens, mix 10-20 lbs. with compost and apply to each 1000 square feet and drench in. For Lawns, use 2 to 3 lbs. per 100 square feet and water in thoroughly. 100 lbs. **\$3.35**.

**Mel-O-Grond**, a balanced mixture of 80% Montana Sheep Manure and 20% Sun Cured Bone Meal. 100 lbs. **\$2.50**.

**Milorganite**, a fertilizer made from the Milwaukee sewerage system, and very beneficial for lawns and gardens, 100 lb. bag **\$3.00**.

**Plantabbs**, concentrated plant food in Tablets containing Vitamin B-1. Box of 30 tablets **25c**; 75 tablets **50c**; 200 tablets **\$1.00**.

# VIGORO

*Specially prepared plant food*

Clean odorless Plant Food containing all necessary Plant Food elements required by growing plants, including 4% Nitrogen; 12% Phosphoric Acid and 4% Potash. Recommended to use at the rate of 4 lbs. per 100 square feet of Garden or Lawns for the first application and for later applications about half that amount.

## OTHER FERTILIZERS AND PEAT

**Bone Meal**—A high grade steamed bone meal for enriching the soil. Not a stimulant, but more for general improvement of soil. Nitrogen 2%, Phosphoric Acid 24%. 5 lbs. **40c**—25 lbs. **\$1.15**—50 lbs. **\$2.00**—100 lbs. **\$3.75**.

**Sheep Manure, Pulverized**—A humus rich fertilizer for general use. 5 lbs. **30c**—10 lbs. **50c**—25 lbs. **90c**—50 lbs. **\$1.50**—100 lbs. **\$2.50**.

**Tobacco Mulch**, used for mulching flower beds and benches, 100 lb. bag, **\$3.25**.

**Montana Sheep Manure**, dry, pulverized, 100 lb. bag **\$2.00**.

**Rose Grower Bone Meal** (Raw Bone Meal)— $3\frac{3}{4}\%$  Nitrogen, 22% available Phosphoric Acid. Finely pulverized, more quickly available than ordinary Raw Bone Meal. For Benches, 10 lbs. per 100 square feet mixed with the soil is recommended. Very good for perennial gardens. 100 lbs. **\$4.25**.

**Muriate of Potash**, 50% Potash. Used with other materials such as Phosphoric Acid. Of special value for Potatoes and other root crop. 5 lbs. **35c**—10 lbs. **60c**—25 lbs. **\$1.25**—50 lbs. **\$2.00**—100 lbs. **\$3.50**.

**Hardwood Ashes**, 25 lbs. **\$1.25**; 100 lbs. **\$3.25**.

**Super-phosphate**, 20% available inorganic Phosphoric Acid. 5 lbs. **25c**—10 lbs. **40c**—25 lbs. **85c**—50 lbs. **\$1.50**—100 lbs. **\$2.50**.

**Multiphos**, 45% available inorganic Phosphoric Acid. 100 lbs. **\$4.00**.

**Nitrate of Soda**, 16% inorganic Nitrogen, readily soluble and quickly available. A stimulant for grass and other green plants. 1 lb. **10c**—5 lbs. **35c**—10 lbs. **60c**—25 lbs. **\$1.25**—50 lbs. **\$2.00**—100 lbs. **\$3.50**.

**Aluminum Sulphate**, used for adding acid to soils where such is needed. 1 lb. **10c**—5 lbs. **35c**.

**Sulphate of Ammonia, kiln dried**, 21% inorganic Nitrogen. For use outside or under glass. In Liquid Manure, dissolve 2 lbs. per 50 gallons of water. 1 lb. **10c**—5 lbs. **35c**—10 lbs. **60c**—25 lbs. **\$1.00**—50 lbs. **\$1.75**—100 lbs. **\$3.00**.

**Sulphate of Potash** for carnations, 100 lbs. **\$4.50**.

**Charcoal**—Powdered or coarse, 50 lbs. **\$1.25**.

**Urea** (Uramon)—42% Nitrogen. 1 lb. **20c**—5 lbs. **75c**—10 lbs. **\$1.25**—50 lbs. **\$4.00**—100 lbs. **\$7.50**.

**Adco**—Used to mix with leaves, straw or other green matter for converting such material into manure quicker than in a compost heap. 25 lbs. **\$2.50**—150 lbs. **\$13.00**.

**Cotton Seed Meal**—Sometimes used as a fertilizer, rich in humus. 100 lbs. **\$3.25**.

**Blood Meal**—Valuable fertilizer, gives plants and flowers a richer and deeper color. 1 lb. **15c**—10 lbs. **\$1.25**.

**Scotch Soot**—Imported, for stimulating leaf growth. 5 lbs. **65c**—10 lbs. **\$1.15**—25 lbs. **\$2.50**.

**Swedex**, very finely pulverized imported Peat for mixing in soil or for seed flats. Sack **\$2.00**; bale **\$7.00**.

**Peat Moss, Horticultural**—Imported bales. For mulching Lily beds or perennial borders and for general use in mixing with soil or for mulching. A bale contains about 20 bushels of Peat when loosened up. 1 bale **\$4.25**—5 bales **\$20.00**—10 bales **\$37.50**.

25c per bale less if not delivered or for shipment.

**Spaghmun Moss**, per bale **\$1.25**.

**Gypsum or Land Plaster**—100 lb. bags **\$1.25**.

**Limite**—Hydrated lime, used for applying to sour soil. 5 lbs. **20c**—10 lbs. **35c**—50 lb. bag. **\$1.00**.

For Fertilizer in ton lots, please ask for prices.

# SPRAYING PAYS

## Insecticides and Fungicides

A RELIABLE BRAND

**Allround Spray** (Acme)—Contains Bordeaux and Arsenate of Lead mixed and a bottle of Nicotine.  $\frac{1}{4}$  lb. can **20c**.

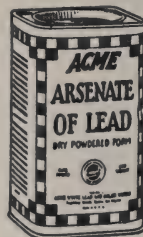

**Ant Kill** (Acme)—Kills ants in their nests, destroying whole colonies. Sold either the Syrup alone or together with the Safety Cups. Junior Sets has one 2 oz. bottle of syrup and 2 cups. Cottage Sets has one 3 oz. bottle of syrup and 5 cups.

|                         |               |                         |               |
|-------------------------|---------------|-------------------------|---------------|
| Junior Sets .....       | <b>\$0.35</b> | 2 oz. Bottle Syrup..... | <b>\$0.20</b> |
| Cottage Sets .....      | <b>.60</b>    | 3 oz. Bottle Syrup..... | <b>.25</b>    |
| Service Cups, each..... | <b>.10</b>    |                         |               |

**Aphis Spray** (Acme)—All around contact insecticide for control of Aphis, Thrip, Leaf Hopper and many other sucking insects. The 3 oz. tube contains 1 oz. Nicotine (Black Leaf 40) and 2 oz. Fish Oil Soap. Ready for use, just add water. 3 oz. tube **35c**; 12 oz. can **95c**;  $2\frac{1}{2}$  lb. can, **\$2.25**.

**Arsenate of Lead** (Acme)—Very fluffy and bulky. A favorite spray for control of most chewing insects and worms. Does not harm foliage and sticks well.  $\frac{1}{2}$  lb. can, **20c**; 1 lb. can, **30c**; 4 lb. bag, **60c**.

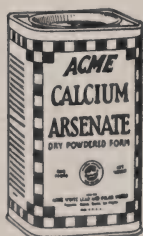

**Atlacide**—Weed eradicator for tennis courts and driveways. 5 lbs., **85c**; 10 lbs., **\$1.50**; 50 lbs., **\$6.75**; 100 lbs., **\$12.00**.

**Bait-M** (Acme)—New improved formula. Insecticide bait for cutworms, sow-bugs, grasshoppers and other leaf-eating insects. Scatter around the plant to be protected.  $1\frac{1}{2}$  lb. carton, **35c**; 4 lb. carton, **85c**.

**Black Leaf 40**—A 40% Nicotine Sulphate for spraying against almost all kinds of insects and for painting chicken roosts for lice on poultry. 1 oz., **35c**; 5 oz., **\$1.00**; 1 lb., **\$2.25**; 2 lbs., **\$3.25**; 5 lbs., **\$5.85**; 10 lbs., **\$10.60**.

**Bordeaux Mixture** (Acme)—For preventing blight and a general fungicide. 1 lb. **30c**—4 lbs. **65c**.

**Calcium Arsenate** (Acme)—Inexpensive for use on hardy foliage. Does not stick as well as Arsenate of Lead, but it is stronger and cheaper. 1 lb., **25c**; 4 lbs., **45c**; 24 lbs., **\$2.50**.

**Ceresan**—New improved. Dust disinfectant for Wheat, Oats and Barley. 1 lb. can treats about 30 bushel. 1 lb., **70c**; 5 lbs., **\$3.25**.

**Cyanogas**—A dust for quick fumigating for outside use.  $\frac{1}{2}$  lb., **45c**; 1 lb., **75c**. G Dust for Greenhouse Fumigating. 5 lbs., **\$3.00**; 25 lbs., **\$10.00**.

**Dawg-gone** (Acme)—Keep dogs away. To use, hang the tubes on a branch or post and unscrew the cap. The odor will then slowly escape and keep the dogs away. Per tube, **25c**.

**Dogzoff**—A liquid spray for keeping dogs away from evergreens, steps and other places. 3 oz. bottle, **60c**.

**Cuprocide**, for disinfecting seeds and soils.  $\frac{1}{4}$  lb. **35c**, 1 lb. **90c**. **Cuprocide 54**. 3 lbs., **\$1.25**.

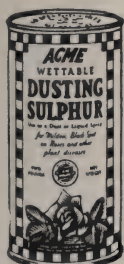

**Cinnex 20**, an instant mercury dip for potatoes. 1 lb. **\$1.25**.

**Dogzix**, liquid spray to keep dogs and other animals at a distance. 3 oz. bottle, **35c**; 6 oz., **50c**; 16 oz. bottle, **\$1.00**.

**Dusting Sulphur** (Wettable)—Can be used either dry or mixed with water for spraying. 2 lb. can, **25c**; 5 lb. bag, **50c**; 100 lb. lots, ask for prices.

**Dutox**—A non-arsenical insecticide, contains neither lead nor arsenic. Can be used on Cabbage, Corn, Cucumbers and other plants. 1 lb., **30c**; 6 lbs., **\$1.20**.

**Evergreen**—New Formula. Non-poisonous insecticide for general use. Contains spreader, so it only needs to be diluted with water. 1 oz., **35c**; 6 oz., **\$1.00**; 16 oz., **\$2.00**; 32 oz., **\$3.25**.

## HOME GARDENERS!

Grow more beautiful flowers by ridding plants of harmful insects. Simply spray powerful, non-poisonous Ever Green—small cost, big results, easy to use. 35c bottle makes 6 gallons.

## EVER GREEN Garden SPRAY

**Emo** (Acme)—Summer Oil Spray, safe to use and very effective for Rust Mites, Red Spiders and other sucking insects on trees and flower-plants. 8 oz. can, **30c**; Pint, **50c**; Quart, **70c**; Gallon, **\$1.95**; 5 Gallons, **\$5.00**.

**Emo Nik** (Acme)—Oil Spray for summer use, containing Nicotine and is recommended for Aphis, Thrip, Scale and many other insects.  $4\frac{1}{2}$  oz. can, **35c**; Pint, **65c**; Quart, **95c**; Gallon, **\$2.50**.

**Formacide**, Formaldehyde Dust for controlling "damping-off." 5 lb., **\$2.00**; 25 lb., **\$5.50**.

**Formaldehyde Liquid**—Pint, **50c**; Quart, **85c**.

**Fume-Tobac**—An inexpensive, effective Greenhouse Fumigant. 25 lbs., **\$5.00**; 50 lbs., **\$8.50**; 100 lbs., **\$16.00**. F.O.B. Minneapolis.

**Filmfast**, for mixing with insecticides, to help make an even spray. 2 lbs., **40c**.

**Garden Guard** (Acme Old Formula)—All around Dust Insecticide for Garden and Field. 1 lb. can, **25c**; 5 lb. bag, **65c**; 50 lbs., **\$5.00**.

**Gopher Poison** (Woodlark)—Poisoned grains for baiting moles, mice and like animals. 1 lb. can, **50c**.

**Kopper Queen Mildew Spray**, strong liquid copper spray for control of Mildew, leaf spots and black spots in Roses and other plants. Stainless and leaves no unsightly residue.  $\frac{1}{2}$  Pint, 35c; Pint, 60c; Quart, 90c; Gallon, \$2.25.

**Lime Sulphur, Dry** (Acme)—For dormant spray on Trees and Shrubs for Scale insects. 1 lb. can, 35c; 5 lb. can, \$1.45;  $12\frac{1}{2}$  lb. bag, \$2.00; 100 lbs., \$12.50.

**Lime Sulphur Solution**, ready to mix. Qt. can, 45c; gal., \$1.00.

**Kopper King** (Acme)—A basic Copper Sulphate, neutral and insoluble, requiring no lime to keep it from burning. Contains 52% copper. Can be used as a liquid or combined with a carrier to make a home made Dust. 1 lb., 35c; 4 lb. bag, 85c; 25 lbs., \$4.75; 100 lbs., \$18.00.

**London Purple** (Acme)—Quick acting arsenical poison for potato bugs and other insects on hardy foliage. Sticks well.  $\frac{1}{4}$  lb. can, 14c; 1 lb. can, 30c; 4 lb. bag, 45c.

**Loro**—Non-poisonous Spray for Garden or Greenhouse. Pint \$2.00; Gallon \$10.50.

**New Multicide**, containing pyrethrum and rotenone together with a new improved spreader. Gal., \$10.25; 5 gal. \$47.00.

**Naphthaline Flakes**—A Thrip preventative. Scatter a generous amount among the Gladioli bulbs when in storage to keep thrip away. 20c per lb.

**Naptoside**—Soil disinfectant for Greenhouse and Hot-beds. 1 lb., 35c; 5 lbs., \$1.25.

**Nico-Fume Liquid**—For Spraying or Fumigating Greenhouses. 1 lb. can, \$2.25; 4 lb. can, \$5.75; 8 lb. can, \$10.00.

**Nico-Fume Powder**—For Greenhouse Fumigating. Comes in the new pressure can, ready to light.  $\frac{1}{2}$  lb can, 45c; per dozen, \$4.20; 1 lb. can, 75c; per dozen, \$7.00.

**Nu Green**, for brown patches and fungus in Lawns. 3 oz. 35c; 1 lb. \$1.45; 5 lb. \$6.25.

**Mowrah Meal**, powder for eradicating worms from lawns. Spread evenly on the lawn and water down thoroughly; the worms then come up and die. 10 lbs., \$1.00. Ask for prices on larger lots.

**Pyrote**—Insect Spray containing Pyrethrum, Rotenone and other ingredients, contact spray and can also be used for dipping bulbs. 1 oz. bottle, 35c; 6 oz. bottle, \$1.00; pint cans, \$2.00.

**Pyroxide**, for dusting vegetables against aphids worms and other insects. Not a poison. 1 lb., 25c; 5 lbs., \$1.00; 25 lbs., \$4.50; 50 lbs., \$8.50; 100 lbs., \$16.00.

**Paris Green** (Acme)—Most powerful and quickest acting poison for Potato bugs and other large leaf eating insects.  $\frac{1}{4}$  lb., 18c; 1 lb., 50c; 5 lbs., \$2.25; 14 lbs., \$5.00; 100 lbs., \$31.00.

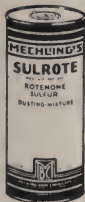

**Red River Potato Mix** (Acme)—Special formula for Potatoes only. Kills potato bugs quickly; prevents blight from gaining a foothold and stimulates foliage. Use as a dust or spray. 1 lb., 30c; 4 lbs., 80c.

**Rose Spray**, 3 separate spray items packed in one box and consisting of the necessary spray material for controlling pests on Roses and other plants. No. 3 **95c**; No. 6 **\$1.50**; No. 24 **\$4.00**; No. 48 **\$6.00**. The number indicates how many gallons of spray each set will make.

**Rotogreen**, effective for thrip, red spider, mealy bugs in addition to the more easily controlled insects. Pint **\$2.00**; gal., **\$12.00**.

**Rotocide**—Non-poisonous liquid contact spray, containing Rotenone. 1 oz., **35c**; 8 oz., **\$1.00**; pt., **\$1.75**; qt., **\$3.00**.

**Rotenone Sulphur Dust**—1 lb. Rotenone and Sulphur Dust in can equipped with duster. Complete **90c**; can alone, **40c**.

**Rotenone Garden Dust**—Pound cans of this popular insect dust equipped with a Dust Gun to insert in the can. Complete with duster, **85c**; cans with dust, only **35c**.

**Sulrote**—Combination of Rotenone and Sulphur for dusting plants against many insects and fungus diseases. 10 oz. Duster can, **50c**; 1 lb. can, **40c**.

**Rotenone Garden Guard** (Acme)—Non-poisonous insecticide for Garden and Field. The Rotenone in the 1 lb. cans is of 1% strength—in the larger containers  $\frac{3}{4}$  of 1%. 1 lb., **35c**; 4 lb. bag, **55c**; 25 lbs. **\$3.20**.

**Selocide**—The recognized remedy for Red Spider. Gallon, **\$3.00**.

**Semesan**—A Seed disinfectant for Vegetables and other Seeds. Also can be used dissolved in water for damping-off of small seedlings, and as a cleanser of soil for seedflats. Also used for control of brown patches in lawns. 2 oz. can, **35c**; 1 lb. can, **\$2.25**; 5 lbs., **\$9.90**.  $\frac{1}{3}$  oz. packet, **10c**.

**Semesan Bel**—For dipping Potatoes and Bulbs before planting. 1 lb. treats about 60 bushels. 4 oz. can, **45c**; 1 lb. can, **\$1.50**; 5 lbs., **\$6.75**.

**Semesan Jr.**—A Dust treatment for Seed Corn. 2 oz. treats a bushel of corn. 4 oz. can, **30c**; 1 lb. can, **75c**; 5 lbs., **\$3.25**.

**"Stop"**—tree banding compound for stopping crawling insects and worms from going up tree trunks. 6 oz. can **35c**, 1 lb. **65c**; 5 lbs. **\$3.00**; 10 lbs., **\$5.00**.

**Spray Soap** (Acme)—Fish Oil Soap which can be used as an insecticide or for mixing with other insecticides as a spreader. 1 lb., **30c**; 5 lbs., **\$1.25**.

**Sulphur Powder**—Sulphur Dust either for dusting or evaporating on steam pipes in greenhouses. 5 lbs., **50c**; 10 lbs., **80c**; 25 lbs., **\$1.75**; 100 lbs., **\$4.50**.

**S. S. 3 Spreader**—Combined spreading and sticking agent designed especially for use with agricultural sprays. Gallon, **\$4.00**; Pint, **70c**.

**Tartar Emetic**—The recommended chemical for controlling thrip on Gladiolus.  $\frac{1}{4}$  lb., **25c**; lb., **80c**; 5 lb., **\$3.50**.

**Tobacco Dust (Ordinary)**—For dusting on plants or mixing in soil as an insect preventative. 5 lbs., **40c**; 10 lbs., **65c**; 25 lbs., **\$1.25**; 100 lbs., **\$4.50**.

**Tobacco Dust—Gold Leaf**—A finely pulverized dust for either plant dusting or for use in poultry houses. 2 lbs., **25c**; 10 lbs., **90c**; 100 lbs., **\$6.50**.

**Terro**—A very sure Ant destroyer, for garden or dwelling. Small bottle **25c**; 2 oz. bottle, **50c**.

**Tree Tanglefoot**—A sticky material for tree banding. Stops insects and worms from crawling up the tree trunks. Small can, **35c**; 1 lb. can, **70c**; 5 lb. can, **\$3.30**; 10 lb. can, **\$6.50**; 25 lbs., **\$14.00**.

**Weed Killer**, powerful quick acting arsenical weed killer for destroying weeds and all plant life on driveways, tennis courts or paths, and for spotting out dandelions and other weeds in lawns. A few drops in the crown will kill the plant. Pint, **30c**; Quart, **50c**; Gallon, **\$1.50**. Larger sizes quoted.

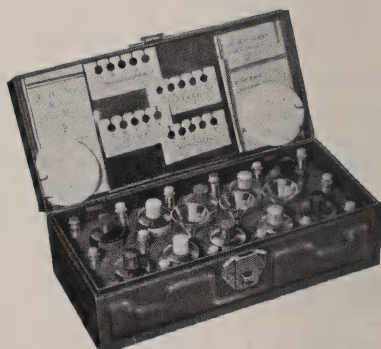

**Triogen**—Combination set special for all insects and diseases on roses. Size A kit (makes 16 qts.) **\$1.50**; B kit (for 16 gals.) **\$4.00**; C kit (for 32 gals.) **\$6.00**.

**Weed Killer Meo 181**—An Armour product for killing weeds on lawns, such as Dandelion, Plantain, Crab Grass and other weeds. Qt., **65c**; Gal., **\$1.55**; 5 gals., **\$7.25**.

**Home Gardener Soil Test Kit**

**Horticultural Soil Test Kit**

**SOIL TEST KITS**—With this, a quick, practical test can be made showing the acidity of the soil, and also any possible deficiency in Nitrogen, Phosphorus and Potash. And if necessary, prompt use of the right kind of Fertilizer will avoid many failures in growing of plants, flowers or grasses. A complete direction is enclosed with each set. No technical skill required for using the sets.

# GARDEX "Soil-Flow" GARDEN TOOLS

## GARDEX Pull Hoe

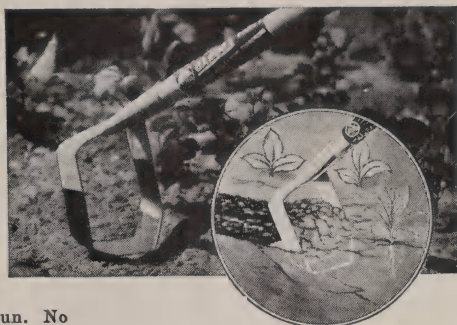

With an easy pull, the sharp V-Shaped Blade bites into the ground.

As you walk along, the soil flows over and through the side guards which also protect plants when doing quick, close work. Thus it weeds and cultivates in one operation, leaving soil finely mulched just where you

want it, without exposing moist soil to sun. No

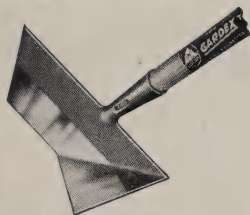

weeds can escape and it gets most of them out by the roots. Handle fits socket perfectly—a firm tamp and it's in to stay—no bolts, screws or wedges to bother with. Made of Special High Carbon Steel for lasting service. Polished Blade.

No. 1004. 4 in. wide, 4½ ft. handle. . . . . Price \$1.10  
No. 1005½. 5½ in. wide, 5 ft. handle. . . . . Price 1.25

## GARDEX TURF EDGER

Now you can edge your lawns, flower beds or borders as fast as walking and do a neater job. This New Edger cuts turf vertically and horizontally in one operation working forward or backward. By tilting to 45° angle, it cuts clean V-shape groove between sidewalk and lawn. Wing blade also used to lift sod out as it cuts. Made of special High Carbon Steel—polished blade and sharpened on all sides except top.

No. 400—4½ ft. handle. **\$1.30**  
Price . . . . .

## GARDEX HAND PLOW

For hilling corn, potatoes, plants, etc. Covering furrows and making irrigation ditches around gardens. With an easy pull it digs in and works well in light or heavy soil. Made of High Carbon Steel, polished mold boards.

No. 2006—6" wide,  
5 ft. handle.

Price

**\$1.75**

## GARDEX JR. WEEDER

**Gets Between Plants 1 Inch Apart**

Ideal for apartment dwellers—small home gardens. Handy tool for flower boxes, hot beds, flower beds, cold frames, borders, hedges, etc. Blade sharpened both sides up to handle. Weeds and tills soil either forward or backward, on straight edge or on angular edge.

No. 700—4" wide, 7" handle. Price only. **25c**

## GARDEX CULTIVATOR

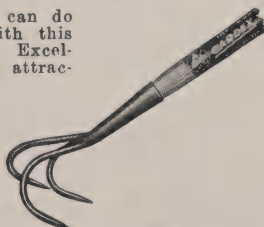

**3 Prong**

For large or small gardens, this easy to operate tool is unsurpassed. The position and construction of the High Carbon Steel Tines cause them to penetrate any soil with ease as they loosen and cultivate the ground thoroughly.

Even a child can do perfect work with this New Cultivator. Excellent quality and attractive low price.

No. 150-3—  
4½ ft. handle.

Complete price . . . **80c**

## 3 PRONG MIDGET CULTIVATOR

Excellent tool for loosening and airing soil in small flower beds, florists' frames, hotbeds, etc. Sturdy, light and well balanced. Sharp pointed prongs easily penetrate soil. No. 713—2¾" wide, 16" long. Price. . . **40c**

For Many other Gardex Tools ask for Illustrated Circular

## HUDSON PERFECTION SPRAYER

The Perfection sprayer was designed to give the purchaser the greatest possible value for his money. The same features that have always made the Perfection an outstanding value have been retained though many new improvements have been made. This pattern is now equipped with the new Open Top for filling and cleaning.

Tank  $7\frac{1}{2} \times 21$  inches. 4 gallon capacity. Seams riveted with brass rivets and heavily soldered. Made of first quality galvanized or copper sheets. Pump of seamless brass tubing,  $1\frac{3}{4} \times 15\frac{1}{2}$  inches. Malleable "D" pump handle. Fitted with 27 inches of discharge hose, 24 inch brass extension rod. Weight about 12 pounds. Adjustable nozzle.

## HUDSON, "SUNSHINE"

A high pressure outfit, sturdily constructed, yet light in weight and easily handled.

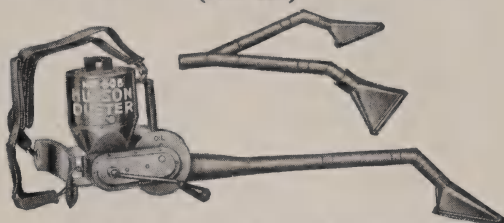

Has ample capacity for any job. Handles all insecticides, fungicides, disinfectants, stock dips, etc.

Heavy gauge galvanized steel tank with reinforced top edge. Pump develops 150 pounds nozzle pressure and is fitted with non-clogging tubular brass intake strainer with dasher type agitator.

Truck is made of heavy channel steel. Tie rods on either side of tank give very rigid construction. Fitted with 16 in. steel wheel with 2 in. tire.

No. 36-S—Cap, 12½ gals.; complete with 5 ft. ¾ in. spray hose with 2 ft. iron pipe extension, angle spray nozzle and Perfection shut-off, each.....\$12.50

No. 37-S with air pressure tank.....\$20.00

HUDSON, "ROTO-POWER"  
(No. 608)

Completely new in design and construction, and an outstanding machine in actual performance. Twin agitators—one oscillating, one rotary—insure uniform feed of powder. Specially designed fan develops unusually powerful air blast. Feed regulator easily and quickly adjusted for any desired volume. Powder feeds into moving air stream and through fan. No powder is fed when fan is not turning or when air is not in motion. Consequently no chance to clog.

Made of heavy lead coated sheet steel. Sturdy enough for severe service. Gears are steel, machine cut, completely enclosed in steel housing. Run in oil bath. Discharge equipment includes two nozzles, two elbows and wye connection and four 15-inch tubes. No. 608 .....\$12.50

## ADMIRAL DUSTER

No. 765—Heavy tin with a nozzle which can be set for dusting straight ahead or for dusting up under the leaves.....\$1.00

## Other Dusters

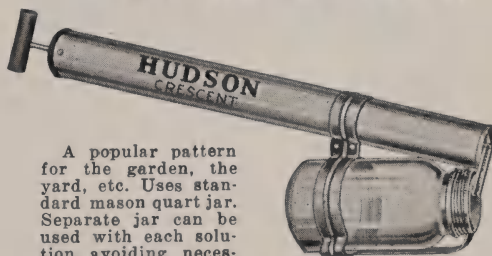

No. 612—Patrol (Glass Jar).....\$0.90

No. 645 ..... .45

No. 660—1 x 11" pump ..... .30

No. 665—1x13" pump ..... .75

## HUDSON CRESCENT SPRAYER

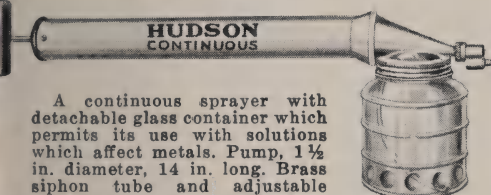

A popular pattern for the garden, the yard, etc. Uses standard mason quart jar. Separate jar can be used with each solution avoiding necessity of emptying or cleaning. Pump is heavy tin, 1½x15 in. Long beaded metal ring holds jar securely in place.

No. 430. Crescent. 1 quart, each.....\$0.65

## HUDSON CRITIC SPRAYER

(Continuous)

A continuous sprayer with detachable glass container which permits its use with solutions which affect metals. Pump, 1½ in. diameter, 14 in. long. Brass siphon tube and adjustable double nozzle prevent corrosion; also adapt it for spray or solid stream. Jar has wide mouth for easy filling, emptying or cleaning.

No. 427G. Critic. One quart.....\$1.00

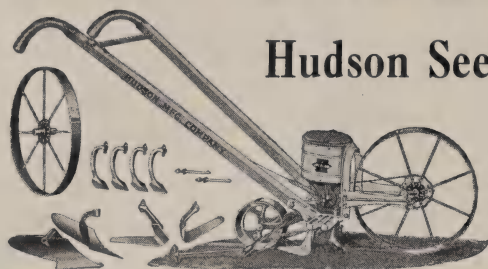

## HARCO SPRAYER

Handy small sprayer for insecticides and for watering small seedlings. The quart jar has standard thread, each.....\$1.95

## Hudson Seeders and Cultivators

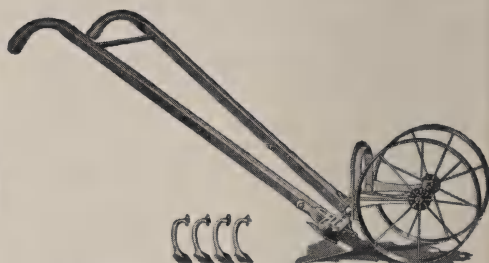

May be used as a hill seeder, drill seeder; a double wheel cultivator, plow or hoe; or a single wheel cultivator, plow or hoe.

- No. 201. Hill & Drill Seeder, as shown.....\$17.25  
 No. 203. Hill & Drill Seeder, less extra wheel..... 16.25  
 No. 205. Hill & Drill Seeder, less attachments..... 13.85

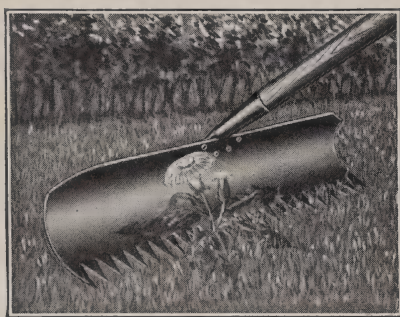

A sturdy single wheel tool for cultivating the area between two adjoining rows, or offset so that tool may be used to cultivate both sides of a single row.

- No. 228. Cultivator, each ..... \$6.50  
 No. 229. Cultivator, less plows..... 5.65

May be used as a double wheelhoe, plow or cultivator astride the row during early cultivation and as a single wheel cultivator between the rows later on.

- No. 213. Cultivator, as shown, ea. \$8.00

- No. PE 16 in. Rake, each.....\$0.75  
 No. PE 20 in. Rake, each..... .85

All-purpose Rake. Self cleaning. Ideal for lawns.

ADJUSTABLE  
2" TO 6" WIDE

- No. 14. Hand Cultivator, 4 ft. handles. Adjustable width from 2 to 6 inches, each....60c

- No. 246. High Wheel Plow, each \$3.50  
 Adjustable frame, 24 in. wheel

# Improved Bavarian Seeders

Practical small seeders for hotbeds and benches in greenhouses and also for outdoor seeding in places where a large seeder can not be used.

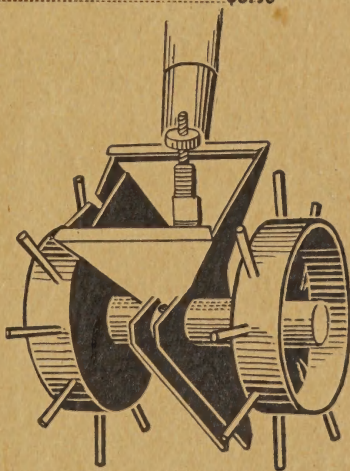

These small seeders can be used for most kinds of small seeds, such as celery, cabbage, cauliflower, radish, turnip, rutabaga and many other kinds.

4-Row Seeder. This machine is about 10½ inches long and seeds 4 rows 2¼ inches apart. Price.....\$6.50

2-Row Seeder is about 6 inches long and seeds 2 rows 2¼ inches apart. Price.....\$4.50

1-Row Seeder is 4 inches wide. Price .....\$3.25

Users who have tried these machines and have any use for them find them almost indispensable. For seeding radishes in benches or hotbeds it takes only a small part of the time it otherwise takes to seed by hand.

We do not furnish the handles for any of the machines. The prices offered are F. O. B. Minneapolis.
